## About the DC Public Charter School Board

In school year 2015-16, the DC Public Charter School Board (DC PCSB) oversees 62 Local Education Agencies (LEAs) at 115 schools, which will serve nearly 39,000 students from every ward of the city. The organization's mission is to provide high-quality public school options for District of Columbia students, families, and communities through four functions:

- A comprehensive review application process - ensures that the DC PCSB approves only those charter school applications that will prepare and train students for postsecondary experiences and individual career paths.
- Effective oversight - holds schools to high standards for results, with extensive reviews and data collection, and makes oversight decisions with the best interests of students in mind.
- Meaningful support - provides clear feedback and increased oversight to low-performing schools, and rewards consistently high-performing schools with more autonomy.
- Active engagement of stakeholders - solicits community input and strives to be responsive to and transparent with all who are affected by and have an impact on DC PCSB and public charter schools.

DC PCSB's vision is to lead the transformation of public education in DC and to serve as a national model for charter school authorizing and accountability.

At the heart of the organization's core values is the belief that every child is entitled to a highquality education that will enable him or her to leave high school well prepared for college and careers.

A Board of seven with a professional staff of 37 is responsible for the oversight and management of the organization's mission and vision. Board members are nominated by the mayor and confirmed by the DC Council.

## DC PCSB's Performance Management Framework

The School Reform Act (SRA) grants DC PCSB authority to hold DC public charter schools (PCSs) accountable for fulfilling their duties and obligations under the SRA. DC PCSB has created the Performance Management Framework (PMF) to hold schools serving similar grades to the same set of standards.

The Performance Management Framework Policy \& Technical Guide (PMF Guide) outlines DC PCSB's process of evaluating and publicly reporting the performance of the public charter schools under its authority. It was created so that school leaders, data managers, families, and other stakeholders would understand how each PMF score was calculated, which measures are used, and how these measures are weighed to form a score.

There are currently four frameworks:

- Early Childhood, Elementary School, and Middle School Performance Management Framework (EC/ES/MS PMF)
- Any school that serves any grades between pre-kindergarten and grade 8 , excluding schools that serve only pre-kindergarten.
- High School Performance Management Framework (HS PMF)
- Any school that starts in grades 8 or 9 and ends in grade 12 with students receiving a high school diploma.
- Adult Education Performance Management Framework (AE PMF)
- Any school that meets the federal definition of adult education.
- Alternative Accountability Framework (AAF)

The AAF framework is unique to each school and therefore is not included in the 2015-
16 Policy and Technical Guide.

- The guidelines for how a school qualifies to be evaluated under Alternative Accountability can be found here.

## Who Gets a PMF Score and Tier

Each public charter school is measured by a Performance Management Framework. If a school has more than one campus, each campus receives a separate PMF. For example, a school with two campuses, each serving grades PK-8, would receive a separate EC/ES/MS PMF for each campus. If a campus spans more than one PMF grade span, each grade configuration is scored and reported separately. For example, a campus serving grades PK-12 will receive an EC/ES/MS PMF for grades PK-8 and a HS PMF for grades 9-12.

When the DC PCSB Board (" Board") uses the PMF score as input on decisions regarding expansion to serve additional grade levels, replication of campuses, enrollment ceiling increases, and charter renewal or review decisions, it will evaluate all of the campuses and grades within the school. ${ }^{1}$

[^0]
## Determining Campuses

Each charter school determines its school configuration based on the Definition of School, Campus, and Facility board policy. All changes to school configuration must undergo Board approval and a charter amendment.

## New Schools

A new charter school or a new campus of an existing charter school will receive a published PMF score, but the school will not be tiered during its first year of operation. Beginning in its second year, a new charter school campus will be given a score and a tier.

## Expansion Campuses, including Asset Acquisitions

If an LEA is authorized to expand or replicate or acquires the assets of another LEA that ceases operations, the new LEA's campus(es) will be treated as a new school and scored as such on the PMF.

## How Tiers are Determined

Most campuses will receive a tier that indicates whether the school was high performing, mid performing, or low performing for the past academic year. Tiers are calculated based on the total number of points earned for the EC/ES/MS PMF and HS PMF and based on points earned by indicators for the AE PMF. Points are not rounded up to the next whole number.

- Early Childhood, Elementary School, Middle School (EC/ES/MS) PMF and High School (HS) PMF: Using a 100-point scale, schools serving a traditional school-aged population of pre-kindergarten through $12^{\text {th }}$ grade are identified as Tier 1, Tier 2, or Tier 3 based on the school's overall performance on multiple indicators, including student achievement on state assessments in English language arts (ELA) and math, student growth over time, teacher interaction in pre-kindergarten classrooms, attendance, and reenrollment.
- Schools with Tier 1 status earn at least $65.0 \%$ of the possible points.
- Schools with Tier 2 status earn $35.0 \%$ to $64.9 \%$ of the possible points.
- Schools with Tier 3 status earn less than $35.0 \%$ of the possible points.

## Exceptions for Tiering using the EC/ES/MS PMF:

- Schools that recently opened and are growing one grade at a time that do not yet serve grade 4 or higher and also do not use Northwest Evaluation Association Measures of Academic Progress (NWEA MAP) will receive an overall score but no tier. (Note: Schools that choose to give NWEA MAP will follow the framework guidelines for schools ending prior to grade 4 and will receive a tier.)
- Schools serving only pre-kindergarten grades will not receive a tier for 2015-16. DC PCSB is piloting the PK Only portion of the EC/ES/MS PMF framework.
- Adult Education (AE) PMF: Adult education schools will be identified as Tier 1, Tier 2, or Tier 3 on the 2015-16 AE PMF based on the performance of students in progress and achievement in every program offered within the school. Typically, adult education schools offer programs ranging from adult basic education to English as a second language to career and technical certifications. An important aspect of all adult education programs is student engagement in the workforce or postsecondary education upon exiting the school. To assess the school's overall performance, each program is measured separately, and Tier 1 status is awarded only to schools that earn high marks in every program.
- Schools earning Tier 1 status must meet or exceed a weighted range score of $65.0 \%$ on every applicable indicator of the AE PMF.
- Schools earning Tier 2 status must meet or exceed a weighted range score of $35.0 \%$ on every applicable indicator of the AE PMF.
- Schools earning Tier 3 status do not meet the $35.0 \%$ weighted range score on one or more of the applicable indicators on the AE PMF.

## How DC PCSB Responds to Tiers

DC PCSB responds to schools that perform at the varying performance levels by offering more or less on-site oversight and by awarding schools with higher scores permission to replicate or expand their programs. Schools earning fewer points are monitored closely for charter goal attainment.

## Tier 1

High performing campuses are publicly recognized as such by DC PCSB and are generally exempt from Qualitative Site Reviews (QSRs) unless conducted as part of the school's periodic charter review or renewal. ${ }^{2}$ LEAs at which all of their schools are consistently earning Tier 1 status are encouraged to expand, replicate, or otherwise grow to serve more students.

## Tier 2

Mid-performing campuses are generally exempt from QSRs unless conducted as part of the charter review or renewal.

[^1]Lower performing Tier 2 schools (e.g., scoring 35.0\%-45.0\%) are often not achieving their charter goals and student academic achievement expectations as set forth in their charter. Not achieving a school's charter goals puts the school at risk of non-renewal or non-continuance. DC PCSB will generally meet with the school leader(s) and board members to review the school's status.

## Tier 3

If a campus earns a Tier 3 status, it is likely failing to meet its charter goals and student academic achievement expectations as set forth in its charter. DC PCSB conducts a QSR during the following school year. DC PCSB also meets with the school leader(s) and board members.

Tier 3 PMF results that meet one or more of the following criteria may be subject to a high-stakes review as a Candidate for Charter Revocation to determine whether the school's charter should be revoked pursuant to the SRA.

- EC/ES/MS or HS PMF score of $20.0 \%$ or lower in the most recent year.
- EC/ES/MS or HS PMF score that is a $5.0 \%$ decrease or greater within Tier 3 from one year to the next.
- AE PMF score in which the school earns $35.0 \%$ or less of the possible points or an N/A in three or more indicators.
- Any school performing in Tier 3 for any three of the previous five years.

Schools that are Candidates for Charter Revocation as a result of their Tier 3 status undergo a high-stakes review immediately to gather qualitative and quantitative evidence to determine whether the school has met its Charter Goals and is otherwise compliant with the SRA. Prior to the charter's expiration, the SRA gives DC PCSB discretion over whether or not to revoke a charter for failure to meet Charter Goals. In the case of Candidates for Charter Revocation, DC PCSB staff will generally recommend charter revocation if a school has failed to meet any of its Charter Goals.

## How Scores are Calculated

This evaluation framework comprises indicators, measures, and metrics. This structure has been adapted from a report by the National Consensus Panel on Charter School Academic Quality. ${ }^{3}$

- Indicators are defined as "general dimensions of quality or achievement." These are categories of measures such as "student achievement" "student progress," or "school environment."
- Measures are defined as "general instruments or means to assess performance in each area defined by an indicator." Each indicator contains one or more specific measures, such as "percentage of students scoring College and Career Ready on the PARCC," ${ }^{4}$ or "school re-enrollment rate."

[^2]- Metrics are defined as "the calculation method or formula for a given measure."

## Indicators

For each framework, indicators were developed to capture the most important aspects of a school's academic program.

For schools serving grades PK-12, the indicators are:

- Student academic achievement, such as the percentage of students scoring College and Career Ready on the PARCC in English language arts or mathematics.
- Student progress, as measured by the Median Growth Percentile, which assesses the relative year-to-year progress made by individual students at a school.
- School environment, such as attendance and re-enrollment rates.
- "Gateway," which contains measures of early benchmarks of student achievement, such as high school graduation rates, or the reading proficiency of a school's third graders.

For schools serving an adult population, the indicators include:

- Student achievement and progress in specific programs (measured by progress through the various levels of English as a second language and adult basic education).
- College and career readiness outcomes.
- Leading Indicator, such as attendance and re-enrollment rates, that capture the student's likelihood of completion.

## Calculating a School's Score

Each measure has a "weight," which is the maximum possible points that can be awarded for that measure. Each measure also has an established floor and target.

The floor determines the minimum value for which any points are awarded. Schools do not receive points for values that are at or below the floor. For example, if the re-enrollment floor were $60.0 \%$, a school where $60.0 \%$ or fewer of its students re-enroll would not receive any points for the measure.

The target determines the value at which the maximum points for a common measure are awarded. Schools do not receive additional points for values that are above the target. For example, if the target for re-enrollment is $90.0 \%$, a school where $95.0 \%$ of its students re-enroll would receive the full amount of points available for the measure, but no more.

Depending on the school's score on each measure and its position between the floor and target, it will receive incrementally more points the higher the score. For example, if the floor for reenrollment was $60.0 \%$ and the target was $90.0 \%$, a school that earned a $75 \%$ re-enrollment rate
would receive exactly half of the total amount of possible points because its score fell halfway between the floor and the target. ${ }^{5}$

A school's overall PMF score is calculated by taking the sum of the points earned by the school for all of the measures for which it was eligible and dividing it by the maximum possible score that could have been earned by the school. For example, if a school's total earned points for all measures was 60 , and the total possible points that could have been earned was 80 , the school's PMF score would be $60 / 80$, or $75 \%$. ${ }^{6}$

## Untiered Measures

The EC/ES/MS PMF has additional stand-alone goals and measures included within the framework for grades PK-2. These additional goals and measures are not included in the overall score and tier for the school. These measures are displayed on the school's PMF report and are considered as part of the school's overall information for reviews and renewals. For additional information, please see the EC/ES/MS PMF section of this document.

## Mission Specific Goals

EC/ES/MS and AE schools may display a Mission Specific Goal on the PMF. These data are not included within the tiered PMF as they are unique to the individual school. When a school applies to display a Mission Specific Goal on the PMF, the school will also negotiate a performance display range with DC PCSB.

## Metrics

The metrics, or data sources and calculation rules used for each measure, are outlined in the appropriate section of this PMF Guide. Schools provide DC PCSB with the underlying student performance data for rates to be calculated at the campus level for each PMF. In some cases, such as state assessments achievement and progress, pre-kindergarten climate, and graduation rates, the Office of the State Superintendent of Education (OSSE) provides DC PCSB with the final rates. There is always a validation process in which the school affirms that the data are correct and that the calculation is accurate. DC PCSB complies with FERPA (the Federal Educational Rights and Privacy Act) and takes every precaution not to publish data that would allow anyone to identify a specific student.

## When No Data are Available

DC PCSB will not report the results when no data are available for the campus due to issues beyond a school's control, such as an error with the results coming from the testing company. The points associated with that measure are removed and the total possible points for the PMF are adjusted. For example, a first-year school does not have a re-enrollment rate. In this case, the re-enrollment rate is not applicable and the total scorecard is out of 90 points instead of 100 .

[^3]DC PCSB will report results as zero and the school will not receive points if the school made an error causing no data to be available, such as failing to provide data to DC PCSB or forgetting to administer an assessment. This measure will be included in the calculation of the total points possible in the PMF.

## Minimum Cohort Sizes

DC PCSB will not report the results in case fewer than 10 students are included in a particular metric result, and the points associated with that measure will be removed from the total points possible in the PMF. ${ }^{7}$

## Rounding

All final data and metrics are rounded to the nearest tenth. DC PCSB makes every effort to retain the data it receives until final results are presented. Data are stored to the number of digits originally provided by the publisher, school, or LEA and are rounded only at the display stage.

[^4]Early Childhood/Elementary School/Middle School (EC/ES/MS) PMF

## EC/ES/MS School Performance Management Framework

This overarching framework covers all school campuses with pre-kindergarten-3 (PK3) through grade 8 for school year 2015-16. Given that schools have different start and end grade combinations, the framework has slight differences depending on the grade level(s) the campus serves. DC PCSB has adopted five unique configurations of this framework to allow flexibility for the unique starting and ending grade levels of charter schools.

Exceptions to this framework:

- Campuses serving PK only grades are not included in this framework.
- If a school ends in grade 9 and has at least two grades between grades 6 and 8 (i.e. grades 7 and 8 ), it is evaluated using the EC/ES/MS PMF, and grade 9 is considered part of this framework rather than as part of the high school framework.

## Indicators

For the 2015-16 school year, DC PCSB will use four indicators to measure academic performance for all schools serving grades PK-8:
(1) Student Progress: This indicator includes measures that capture student academic growth in English language arts and/or math either from fall to spring or spring to spring on a standardized assessment. Every eligible student is included in this indicator.
(2) Student Achievement: This indicator includes measures that capture student academic achievement in English language arts and math in any given year or years. It is generally described as "percentage of students scoring" at a grade-level standard. Every eligible student in grades 3 and higher is included in this indicator.
(3) Gateway: This indicator includes measures that capture critical achievement for future progress, such as reading in $3^{\text {rd }}$ grade, a predictor of future academic success, and math in $8^{\text {th }}$ grade, also a predictor of student success in high school. Performance is limited to students who have attended the school for two or more years.
(4) School Environment: This indicator includes measures that capture a school's climate such as attendance rate, re-enrollment rate (as calculated from fall to fall), and for prekindergarten classrooms, teacher interaction as measured by the Classroom Assessment Scoring System (CLASS).

These four core indicators of academic achievement apply to every school ending in grades 3-8, with different weights assigned to the indicators depending on the grade span of the school. Student achievement is untiered (display only) for schools ending in grades PK-2 because there is no state assessment for these grades.

## Measures, Floors, and Targets for the Tiered Portion of the EC/ES/MS PMF

Each indicator has an approved set of measures that fall into each category. To assign points, each measure has a floor and a target in which points are earned. Depending on the school's
score on a specific measure and its position between the floor and target, it will receive incrementally more points the higher the score, up to the maximum number of points for that measure, which is determined by the weight.

The floor determines the minimum value for which any points are awarded. Schools receive no points for values that are below the floor. The target determines the value at which the maximum points for a common measure are awarded. Schools receive no additional points for values that are above the target. Floors and targets are calculated using the formulas in the following sections. For 2015-16 and forward, DC PCSB is holding floors and targets steady for two years when the measure has been established with at least three years of data. In each section, under the floor and target, the technical guide notes if the floor and target is being held for longer than one year.

## Student Progress Indicator

Student progress is a measure of student growth over the course of a year. For schools ending in grades K-3, DC PCSB uses the median of the school's Northwest Evaluation Association Measures of Academic Progress (NWEA MAP) student level Conditional Growth Percentile (CGP) as the growth measure. For schools ending in grades 4-8, DC PCSB uses the median growth percentile (MGP) on the Partnership for Assessment of Readiness for College and Careers (PARCC) as the growth measure.

1. Progress Measure for grades K-3
a. Measure: NWEA MAP's CGP captures the student's percentile of growth compared to all students in the same grade with the same starting RIT score in grades K-3 to measure student progress. ${ }^{8}$ The CGP for each student is set by the publisher's 2015 norms, based on the student's initial assessment score. Note: this measure is included in the tiered portion of the PMF only for schools ending in grades kindergarten, 1, 2, or 3 .
(1) A CGP is calculated for each student by the publisher, which shows how the student performed compared with other students, nationally, who take NWEA MAP.
(2) All students' CGP scores for a school are arrayed from high to low and the median of these scores becomes the school's growth score for both ELA and Math. The higher the score, the more students are improving compared with all students, nationally, who are taking the same assessment.
(3) This is a one year measure.
a. Floor and Target: Floor and Target: The floor for median CGP is 30 and the target is 70. CGP is centered at 50 .
b.

| Measure | Floor | Target |
| :--- | :--- | :--- |
| NWEA MAP Growth - ELA | 30 | 70 |
| NWEA MAP Growth - Math | 30 | 70 |

[^5]2. Progress Measure for grades $4-8$
b. Measure: MGP captures the median growth of all public school students' progress by comparing changes in students' PARCC scores to changes made by other students with similar score histories on the PARCC in the previous year.
Calculating MGP is a three-step process:
(1) A student growth percentile (SGP) is calculated for each student, which shows how that student performed in this year's assessment compared with other DC students who had similar performance in the previous year's assessment. For example, if 20 students had a score of 340 in last year's PARCC test, a student who did better than 15 of those students in this year's test would have an SGP of 75 , since that student did better than $75 \%$ of the students with a similar score on last year's assessment. Scores from all District students, including those at DCPS schools, are used to determine an academic peer group and to calculate SGPs.
(2) All of the students' SGP scores for a school are arrayed from high to low and the midpoint, or median, of these scores becomes the school's median growth percentile, or MGP. The higher the score, the more students are improving compared with students attending other public schools in the District.
(3) DC PCSB calculates a two-year weighted average (by n-size) by averaging the school's MGP values from two consecutive years. The twoyear weighted average is used to mitigate fluctuations in scores from year to year.
c. Floor and Target: The floor for MGP is 30 and the target is 70 . MGP is centered at 50 .

| Measure | Floor | Target |
| :--- | :--- | :--- |
| Median Growth Percentile - ELA | 30 | 70 |
| Median Growth Percentile - Math | 30 | 70 |

## Student Achievement Indicator

OSSE has selected the Partnership for Assessment of Readiness for College and Careers (PARCC) as the state assessment for DC for students in grades 3 through 8. Each student will receive a score and a level, from 1 to 5 , as follows:

- Level 1: Did not yet meet expectations of Career and College Readiness
- Level 2: Partially met expectations of Career and College Readiness
- Level 3: Approached expectations of Career and College Readiness
- Levels 4 and 5: Career and College Ready

For the PMF, schools are measured as follows:

1. Approaching College and Career Readiness Measure: Achievement Measures for grades 3 through 8 (and any subset thereof):
a. Level 3 and above in ELA: The percentage of all students in all tested grades at the school achieving a level 3 or above on the PARCC assessment in ELA.
b. Level 3 and above in math: The percentage of all students in all tested grades achieving a level 3 or above on the PARCC assessment in math.
2. College and Career Readiness Measure: Achievement Measures for grades 3 through 8 (and any subset thereof):
a. Level 4 and above in ELA: The percentage of all students in tested grades earning a Level 4 or 5 on the PARCC assessment in ELA.
b. Level 4 and above in math: The percentage of all students in tested grades earning a Level 4 or 5 on the PARCC assessment in math.
3. Floors and Targets
a. Approaching College and Career Readiness and Above: DC PCSB set an aspirational target of 100.0 for Level 3 and above.
b. College and Career Ready: The business rule for calculating the target for Level $4+$ is to take $25 \%$ of the difference of $100-90^{\text {th }}$ percentile and add it to the $90^{\text {th }}$ percentile for the measure.

The table below describes the business rule for determining the floor and target for both approached and college and career measures.

| Measure | Floor | Target Business Rule | Calculated Target |
| :---: | :---: | :---: | :---: |
| Level 3: Approaching College and <br> Career Readiness and Above in <br> ELA (all tested grades) | 0.0 | 100.0 | 100.0 |
| Level 3: Approaching College and <br> Career Readiness and Above in <br> Math (all tested grades) | 0.0 | 100.0 | 100.0 |
| Level 4 and 5: College and Career <br> Ready in ELA (all tested grades) | 0.0 | $\left(100-90^{\text {th }}\right.$ percentile)*.25 + <br> $90^{\text {th }}$ percentile | 56.1 |
| Level 4 and 5: College and Career <br> Ready in Math (all tested grades) | 0.0 | $\left(100-90^{\text {th }} \text { percentile) }\right)^{*} .25+$ <br> $90^{\text {th }}$ percentile | 63.2 |

## Gateway Indicator

This indicator includes measures that capture critical achievement for future success, such as reading in $3^{\text {rd }}$ grade, a predictor of future academic success, and math in $8^{\text {th }}$ grade, also a predictor of student success in high school. Performance is limited to students who have attended the school for two or more years.

1. Measures for grade 3 and 8 :
a. Level 4 or above in $3^{\text {rd }}$ grade ELA: The percentage of all $3^{\text {rd }}$ grade students who have attended the LEA for at least two full academic years ${ }^{9}$ achieving a level 4 or above on the PARCC assessment in ELA.

[^6]b. Level 4 or above in $8^{\text {th }}$ grade math: The percentage of all $8^{\text {th }}$ grade students who have attended the LEA for at least two full academic years and achieved a level 4 or above on the PARCC assessment in math.
2. Floors and Targets
a. The business rule for calculating the target for Level $4+$ is to take $25 \%$ of the difference of $100-90^{\text {th }}$ percentile and add it to the $90^{\text {th }}$ percentile for the measure.

The table below describes the business rule for determining the floor and targets.

| Measure | Floor | Target | Calculated Target |
| :---: | :---: | :---: | :---: |
| Level 4: College and Career <br> Ready Grade 3 ELA of returning <br> students | 0.0 | $\left(100-90^{\text {th }} \text { percentile }\right)^{*} .25+$ <br> $90^{\text {th }}$ percentile | 63.5 |
| Level 4: College and Career <br> Ready Grade 8 math of returning <br> students | 0.0 | $\left(100-90^{\text {th }}\right.$ percentile)* <br> $90^{\text {th }}$ percentile | 67.5 |

## Student Environment Indicator

1. Classroom environment/teacher interaction for pre-kindergarten classrooms
a. Measure: DC PCSB uses a Teacher Interaction observational tool to assess prekindergarten (PK) instruction. The Classroom Assessment Scoring System (CLASS) assesses the typical teacher-student interaction in the classroom. The tool captures and scores this information within three domains, Emotional Support, Classroom Organization, and Instructional Support, on a scale of 1 to 7, with 7 being the highest. An independent, CLASS-trained observer evaluates every PK classroom. For the EC/ES/MS PMF, the score is displayed as a twoyear weighted average, with $70 \%$ on the current year score and $30 \%$ on the previous year's score.
b. Floors and Targets
i. The business rule for calculating the target for each domain is to follow the publisher's guidelines for a score of "high," which means earning 6.0 or above.
ii. Or, if the sector's $90^{\text {th }}$ percentile average is more than 0.5 points below the target, the target will be lowered to the $90^{\text {th }}$ percentile, but not lowered below 4.0.
a. In the Instructional Support domain, the $90^{\text {th }}$ percentile is currently 3.4. Therefore, the target is set at 4.0.
iii. The floor is based on the three-year weighted average score of the $10^{\text {th }}$ percentile in DC public charter schools.
iv. The minimum range between the floor and target must be 1.5 points. If the range between the floor and the target is less than 1.5 , the floor will be lowered 1.5 points from the target.
v. Below are the floors and targets for 2015-16:

| Measure | Floor | Target |
| :---: | :---: | :---: |
| Emotional Support | 4.5 | 6 |
| Classroom Organization | 4.5 | 6 |
| Instructional Support | 2 | 4 |

c. The CLASS measure has three years of data and is an established measure. The floor and target are calculated based on data through 2015-16 and set for two years with 2015-16 serving as year one. The floor and target will follow the business rules to be updated for the 2017-18 PMF Policy and Technical Guide.
2. Attendance
a. Measure for grades PK3 through 8: DC PCSB measures attendance through the average in-seat attendance (ISA) rate of all students attending the campus in grades PK3 through 8. If the $90^{\text {th }}$ percentile of PK3 and PK4 students ISA rates fall two or more percent below the K-8 $90^{\text {th }}$ percentile of ISA rates, DC PCSB will calculate a separate floor and target for this population and calculate a total attendance rate based on n -size. The current data does not support a separate PK measure.
b. Floor and Target

The attendance measure has more than three years of data. The floor and target are calculated based on data through 2015-16 and set for two years with 2015-16 serving as year one. The floor and target will be recalculated for the 2017-18 PMF Policy and Technical Guide. The floor and target are calculated based on the previous three years of ISA rates, where the floor is set at the $10^{\text {th }}$ percentile of school performance and the target is set at the $90^{\text {th }}$ percentile of school performance, with a three-year weighted average. ${ }^{10}$ The minimum range between the floor and target must be 10 points. If the range between the calculated floor and target is less than 10 points, the floor will be lowered by 10 points from the target.

Below is the floor and target for 2015-16:

| Measure | Floor | Target |
| :--- | :--- | :--- |
| Attendance (all students) | 85.0 | 95.0 |

3. Re-enrollment
a. Measure for grades PK3 through 8

Re-enrollment is calculated based on all eligible students who attended the school and were captured in the fall 2014 audit who return to the school and are captured in the school's 2015 audit. Please see the Data Sources and Methodology table for details on eligibility.
b. Floor and Target

The re-enrollment measure has more than three years of data. The floor and target are calculated based on data through 2014-15 and set for two years with 2015-16 serving

[^7]as year one. The floor and target will be recalculated for the 2017-18 PMF Policy and Technical Guide. The floor and target are calculated based on the previous three years of re-enrollment rates, where the floor is based on the $10^{\text {th }}$ percentile of school performance and the target is based on the $90^{\text {th }}$ percentile of school performance, with a three-year weighted average. ${ }^{11}$

Below is the floor and target for re-enrollment for 2015-16:

| Measure | Floor | Target |
| :--- | :--- | :--- |
| Re-enrollment (all students) | 67.0 | 92.0 |

c. Re-enrollment Rate Calculations with Campus Reconfigurations

If an existing school is approved by DC PCSB's Board to reconfigure its campuses, the PMF re-enrollment rate is calculated only at the LEA level during the first year after the campus reconfigures. For example, if an LEA approved by DC PCSB to reconfigure its one campus spanning PK through grade 8 into two campuses serving PK-grade 4 and grades 5-8, the re-enrollment rates for each campus during the subsequent year of reconfiguration will be the re-enrollment rate for the entire LEA, not each individual campus, and the re-enrollment rate will be the same for both campuses.

## Additional Business Rules for Setting Floors and Targets

Any changes to floors and targets will be voted on by the Board after an opportunity for public comment and review. The floors will generally be proposed for revisions according to the business rules described previously, with the following exceptions:

- A measure's floor will not rise by more than $33.3 \%$ in any given year. If the weighted average would cause the floor to rise more than $33 \%$, the increase of the floor will be artificially capped at $33.3 \%$.
- If the three-year weighted average floor decreases by more than $33.3 \%$, the decrease of the floor will be artificially capped at $33.3 \%$
- If there is a significant change in the measure used, (e.g., a change in formula for graduation rates, the state adopts a new state assessment) the floors will be readjusted to the $10^{\text {th }}$ percentile of charter school performance for that new measure using only the year(s) when the new measure is applied and the results are publicly available. ${ }^{12}$ For example, for the PARCC, which was first administered in school year 2014-15, the floor was calculated using only that year's data.
- When only two years of data are available as opposed to three years, the floor will be calculated based on the lowest $10^{\text {th }}$ percentile over the past two years, where both years have $50 \%$ of the weight.
- When one year of data is available, the floor will be calculated based on the lowest $10^{\text {th }}$ percentile in that year.

[^8]Targets will follow the business rules each year, with the following exceptions:

- If the calculated $90^{\text {th }}$ percentile is at or more than $33.3 \%$ above the current target, the target will be raised by $33.3 \%$.
- If a measure is significantly changed (e.g., a new state assessment or a change in formula), and the target is currently not aspirational (e.g., 100\%), the target will be recalculated to match the $90^{\text {th }}$ percentile.
- When three years of historical data are not available, such as when a new measure is introduced or the formula is changed, one or two years of data will be used, until three years of data are available.
- If the calculated target exceeds $100 \%$, the target will remain at $100 \%$.

## Measures that are not included in the Overall Score or Tier

Schools serving grades PK, K, 1, or 2 must include additional measures as untiered measures in the PMF for literacy and math for these grades. These schools also have the option to include untiered measures for social-emotional development. Each measure will include a floor and target specific to that measure, developed according to the procedures described below. These measures will be considered when evaluating a school's performance but will not be considered when assigning a school a PMF Score or Performance Tier.

## 1. EC/ES/MS PMF for schools ending in grade 4 or above

Student outcomes in school-chosen assessments for literacy, math, and social-emotional development for PK through grade 2 will be untiered measures on the EC/ES/MS PMF. They will be displayed on the PMF scorecard but will not be incorporated into the school's PMF Score or tier because schools use a variety of assessments in these grades and standardization across these assessments does not exist, making it impossible to compare performance of schools using different assessments. A list of these assessment descriptions can be found in Appendix A of this section.

## 2. EC/ES/MS PMF for schools ending in grade $\mathbf{3}$ or below

Student outcomes in school-chosen assessments for literacy, math, and social-emotional development for PK will be untiered stand-alone measures on the EC/ES/MS PMF.

Schools permanently ending in grades K-3 must have student growth captured for grades K-3 through a DC PCSB-approved assessment within the scored section of the PMF; these data are not shown again as untiered goals. DC PCSB has approved for the 2015-16 PMF one assessment to capture growth for grades K through 3: NWEA MAP. Schools may opt out of testing $3{ }^{\text {rd }}$ grade students in NWEA MAP since they will also be taking the PARCC.

## 3. Growing Schools with Grades PK-3

For schools temporarily ending in grades K-3 (because they are growing a grade a year and ultimately will serve grades 4 or above) and that do not use NWEA MAP as a school-chosen assessment, student outcomes in the school-chosen assessments for literacy, math, and social-emotional development for PK through grade 2 will be untiered
measures. If the school chooses the NWEA MAP assessment, it will follow the guidelines for EC/ES/MS PMF for schools ending in 3 or below (number 2, above).

If the school chooses any other assessment to measure growth for reading and math other than NWEA MAP, each measure will be handled as a stand-alone goal until the school reaches grade 4 in which the state assessment and MGP will apply, at which time the school will receive a PMF Tier.

## Mission Specific Goals

Schools may apply to display a mission specific goal. This data is not included within the tiered PMF as it is unique to the individual school. Schools can apply to display a mission specific goal through DC PCSB's charter amendment process.

## Displaying Untiered Measures

For each assessment a school chooses as a goal that falls into the untiered section of the PMF, the measure will have its performance displayed within a range as follows:

Normed reference floor of 40 - target of 70 (if the norm is based on the $50^{\text {th }}$ percentile) Criterion reference floor of $60-$ target of 100 .

## Weights for Measures Included in PMF Tier

Indicator Weights by Grade Configuration

Early Childhood Schools with Pre-kindergarten Grades (Ending Grades K-2)

| Weight | Indicator | Measure | Weight | Floor | Target |
| :---: | :---: | :---: | :---: | :---: | :---: |
| $50 \%$ | Student Progress $^{13}$ | NWEA MAP Growth-ELA | $25 \%$ | 30 | 70 |
|  |  | NWEA MAP Growth-Math | $25 \%$ | 30 | 70 |
| $0 \%$ | Student <br> Achievement | Not Applicable* | $0 \%$ | Not applicable |  |
|  |  | Not Applicable* | $0 \%$ |  |  |
| $50 \%$ | School Environment | Teacher Interaction: CLASS <br> Emotional Support | $10 \%$ | 4.5 | 6 |
|  |  | Teacher Interaction: CLASS <br> Classroom Organization | $10 \%$ | 4.5 | 6 |
|  |  | Teacher Interaction: CLASS <br> Instructional Support | $10 \%$ | 2 | 4 |
|  |  | Attendance | $10 \%$ | 85.0 | 95.0 |
|  |  | Re-enrollment | $10 \%$ | 67.0 | 92.0 |

*Additional achievement scores may be displayed in the Untired Measures portion of the PMF.

13 New Early Childhood schools that begin in grades PK-3 will be placed on the above framework if they use NWEA MAP or another PCSB-approved assessment for the Campus-Level PMF. Once a school has $4^{\text {th }}$ grade, the campus will receive a PMF for schools ending in 4-8. If the above PMF is not released for the school, the school will be held accountable for the EC Growing School scorecard

Early Childhood Schools without Pre-kindergarten Grades (Ending Grades K-2)

| Weight | Indicator | Measure | Weight | Floor | Target |
| :---: | :---: | :---: | :---: | :---: | :---: |
| $80 \%$ | Student Progress $^{11}$ | NWEA MAP Growth - ELA | $40 \%$ | 30 | 70 |
|  |  | NWEA MAP Growth - Math | $40 \%$ | 30 | 70 |
| N/A | Student | Not Applicable* | $0 \%$ | Not applicable |  |
|  |  | Not Applicable* | $0 \%$ |  |  |
| $20 \%$ | School Environment | Attendance | $10 \%$ | 85.0 | 95.0 |
|  |  | Re-enrollment | $10 \%$ | 67.0 | 92.0 |

*Additional measures may be displayed in the Untired Measures portion of the PMF.

Elementary Schools with pre-kindergarten grades (Ending Grade 3)

| Weight | Indicator | Measure | Weight | Floor | Target |
| :---: | :---: | :---: | :---: | :---: | :---: |

|  |  | Teacher Interaction: CLASS <br> Emotional Support | $20 \%$ | 4.5 | 6 |

- This framework will receive an overall score but not a tier since student progress and achievement are not included in the overall score. A tier will be assigned when the school grows to include grade 4.

## Schools with only PK Grades: PK Only PMF

DC PCSB designed a performance framework for schools who are approved to only serve grades PK3 and PK4. Schools that serve grades K-12 in their network or new schools beginning in only PK grades and adding a grade each year, are not eligible for this framework. PK Only Schools are unique because there is no PK state assessment or a common assessment to use for accountability in these grades. The framework for PK Only Schools includes the following indicators:

[^12]1. Student Outcomes: This indicator includes measures that capture student achievement or growth in pre-literacy skills, math, and social emotional learning. The publisher determines the targets for student growth or achievement for these developmentally appropriate student assessments. While PK student outcomes are only displayed (not included for points) on the scorecards for all other grade configurations, PK Only Schools asked that PK student outcomes be included for this framework.
2. School Environment: This indicators includes measures that capture the climate such as attendance rates and prekindergarten teacher-student interaction.

## Measures, Floors, and Targets

The following are the measures used in the PK Only PMF:

## Student Outcomes

Schools have the ability to choose the appropriate assessment to measure the skills of preliteracy, math, and social emotional learning for PK students. Currently, the schools that have PK Only campuses use the following assessments: Every Child Ready, Teaching Strategies GOLD, PPVT and TEMA.
Floors and Targets: DC PCSB set the floors and targets for each assessment to align to charter goals for consistency. The minimum range between the floor and target for PK Student Outcomes is 15 points.

|  | Every Child Ready |  |  | Teaching Strategies Gold |  |  | PPVT | TEMA |
| :--- | :---: | :---: | :---: | :--- | :---: | :--- | :--- | :--- |
|  | Pre- <br> literacy | Math | Social <br> Emotional <br> Learning | Pre- <br> literacy | Math | Social <br> Emotional <br> Learning | Pre- <br> literacy | Math |
| Floor | 65 | 65 | 65 | 85 | 85 | 85 | 80 | 70 |
| Target | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 |

## School Environment

Classroom environment/teacher interaction for pre-kindergarten classrooms
a. Measure: DC PCSB uses scores from a Teacher Interaction observational tool to assess pre-kindergarten (PK) instruction. The Classroom Assessment Scoring System (CLASS) assesses the typical teacher-student interaction in the classroom. CLASS is observed the same across all PK classrooms for the PMF. Please see page 17 in the EC/ES/MS PMF section for the description of CLASS and business rules for floors and targets.
3. Attendance
a. Measure for PK3 and PK4: DC PCSB measures attendance through the in-seat attendance (ISA) rate of all students attending the campus in grades PK3 and PK4.
b. Floor and Target

The floor and target are calculated based on the previous three years of ISA rates. The floor is set at the $10^{\text {th }}$ percentile of PK Only School performance and the target is set at the $90^{\text {th }}$ percentile of PK Only School performance, with a three-
year weighted average. ${ }^{22}$ The minimum range between the floor and target must be 10 points. If the range between the calculated floor and target is less than 10 points, the floor will be lowered by 10 points from the target.

In-Seat Attendance floor and target for 2015-16:

| Measure | Floor | Target |
| :--- | :--- | :--- |
| Attendance (all students) | 81.2 | 91.2 |

## Weights for PK Only Framework

| Weight | Indicator | Measure | Weight | Floor | Target |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 45\% | Student Outcomes | Pre-literacy | 15\% | * | * |
|  |  | Math | 15\% | * | * |
|  |  | Social Emotional Learning (optional) ${ }^{23}$ | 15\% | * | * |
| 0\% | Student Achievement | Not Applicable | 0\% | Not applicable |  |
|  |  | Not Applicable | 0\% |  |  |
| 55\% | School Environment | Teacher Interaction: CLASS Emotional Support | 15\% | 4.5 | 6 |
|  |  | Teacher Interaction: CLASS Classroom Organization | 15\% | 4.5 | 6 |
|  |  | Teacher Interaction: CLASS Instructional Support | 15\% | 2 | 4 |
|  |  | Attendance | 10\% | 81.2 | 91.2 |

* Please see the table on the previous page for the floors and targets related to student outcomes.

[^13]Data Sources and Methodology

| Indicator | Measure | Description | Components, Metric, Additional Notes | Rationale |
| :---: | :---: | :---: | :---: | :---: |
| Student Progress | Median <br> Growth <br> Percentile <br> (Grades 4-8) | Growth measure that tells how much change or growth there has been in student performance from year to year. <br> To lessen some of the observed year-to-year variability in the MGPs, DC PCSB computes an aggregated MGP by taking the median of all Student Growth Percentile scores from the previous two years. | Score as provided by OSSE and validated by schools. <br> Components <br> Median Growth Percentile Score is calculated by identifying the median score of: <br> - Grades 3-8: All students who attended the school for the full academic year (FAY) in SY2015-16 in grades 4-8 and all students who attended a school for the full academic year in SY2013-14 in grades 4-8 for whom there was a PARCC score in ELA for two years in two consecutive grade levels. <br> - EC/ES/MS: All students who attended the school for the full academic year (FAY) in SY2015-16 in grades 4-8 and all students who attended a school for the full academic year in SY2013-14 in grades 4-8 for whom there was a PARCC score in math for two years in two consecutive grade levels. <br> References: <br> http://www.doe.mass.edu/mcas/growth/InterpretiveGuide.pdf <br> http://www.schoolview.org/GMFAQ.asp <br> http://osse.dc.gov/sites/default/files/dc/sites/osse/publication/attachments/DC\%20 <br> Growth\%20Tech\%20Report.pdf | A measure of student progress that compares changes in a student's PARCC scores to other students with similar score performance profiles. ## ${ }^{24}$ Full Academic Year (FAY) Business Rule

The number of students included in each grade span (PK and K-2) is the number of students who meet the Full Academic Year requirement (FAY). For the early childhood grades, FAY is defined as the students who are included in the school's audit for the EC grades through the first day of the end-of-year testing window. If the publisher has specific testing windows from the start of school year that cannot be moved, students enrolled on the last day of the testing window in the fall will count for the audit date. This business rule will be used for all PK-2 Early Childhood data.

| Indicator | Measure | Description | Components, Metric, Additional Notes | Rationale |

| Gateway | PARCC <br> College and Career Ready Rate in grade 3 ELA cohort measure | \% of grade 3 students returning to the LEA scoring levels 4 and 5 on the PARCC assessment in ELA. | Components <br> Cohort: PARCC ELA scores for grade 3 school-level FAY students who attended the same LEA the previous year. (2-year cohort) <br> Total number of grade 3 FAY students returning to the LEA from the previous year. For a first-year school that does not have returning students, the gateway rate will be calculated using all current grade 3 students. <br> - Calculating the Floor $=0 \%$ <br> - Calculating the Target $=\left(100-90^{\text {th }} \text { percentile }\right)^{*} .25+90^{\text {th }}$ percentile <br> Metric <br> $\frac{\text { Total \# of returning FAY students in grade } 3 \text { scoring levels } 4 \text { and } 5 \text { on PARCC ELA }}{\text { Total }} * 100$ <br> Total \# of returning FAY grade 3 studetns tested | Critical gateway year for childhood literacy; the cohort measure evaluates schools on their performance from previous years to successfully prepare students for critical academic measures. |
| Gateway | PARCC <br> College and Career Ready Rate in $8^{\text {th }}$ grade math | \% of grade 8 students returning to the LEA scoring levels 4 and 5 on the PARCC assessment in math. | Components <br> Cohort: PARCC math scores for FAY grade 8 students who attended the same LEA the previous year (2-year cohort). <br> Total number of grade 8 FAY students returning to the LEA from the previous year. For a first-year school that does not have returning students, the gateway rate will be calculated using all current grade 8 students. <br> - Calculating the Floor $=0 \%$ <br> - Calculating the Target $=\left(100-90^{\text {th }} \text { percentile }\right)^{*} .25+90^{\text {th }}$ percentile <br> Metric <br> $\frac{\text { Total \# of returning FAY students in grade } 8 \text { scoring levels } 4 \text { and } 5 \text { on PARCC math }}{\text { Total \# of returning FAY grade } 8 \text { studetns tested }} * 100$ | Critical gateway year for adolescent number skills; the cohort measure evaluates schools on their performance from previous years to successfully prepare students for critical academic measures |
| School Environment | Pre-K <br> Teacher <br> Interaction: | Observational tool that provides a common lens | An independent organization will conduct CLASS observations on every PK classroom between November and May. The tool contains three domains: | CLASS is an observational tool that provides a common lens through which to assess |

| Indicator | Measure | Description | Components, Metric, Additional Notes | Rationale |
| :---: | :---: | :---: | :---: | :---: |
|  | Classroom <br> Assessment <br> Scoring <br> System ${ }^{\text {TM }}$ <br> (CLASS) $^{\mathrm{TM}}$ | and language focused on teacher-student interactions. <br> To lessen some of the observed year-to-year variability in observations of CLASS with new teachers, DC PCSB computes an aggregated CLASS domain score by a two year average with the most recent year weighing slightly more than the previous year. | 1. Emotional Support <br> 2. Classroom Organization <br> 3. Instructional Support <br> Metric <br> Class will be a two-year score for each domain with the most recent year weighted $70 \%$ of the overall scores and the previous year weighted $30 \%$ of the overall score. <br> Business Rules <br> Schools will be notified of the two-week window in which observations will occur. The school can opt out of two days within the two-week window. The observer will come at the start of the school day and observe a minimum of four cycles of the CLASS tool. The aggregate scores for each domain will be reported per school. <br> DC PCSB will work with OSSE to have all charter school CLASS observations completed within a three-month window. | interactions between the teachers and children in each classroom. |
| School Environment | Attendance | In-seat attendance rate for grades PK through 8. | Components <br> Attendance by grade span. <br> Aligns with District of Columbia Public Schools (DCPS) calculation. <br> See eligibility exceptions. <br> Metric $\left[\frac{\# \text { of day s present }}{\# \text { day senrolled }}\right] * 100$ <br> NOTE: <br> PK-8 schools: The floor and target for all schools other than PK Only school use data from all campuses excluding PK Only data. The floor and target for PK Only schools use data from PK Only schools. |  |
| School Environment | Reenrollment | Re-enrollment rate for those eligible to return. | Components <br> Previous fall enrollment by student ID and grade (October Audited Enrollment). Current fall enrollment by student ID and grade (October Audited Enrollment). | Used to assess student and parent satisfaction and dropout rate. |

| Indicator | Measure | Description | Components, Metric, Additional Notes |  | Rationale |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Metric <br> Linked audited enrollment data from prev which students reenrolled. <br> Determine which students in previous fall final year; moved out of DC). <br> Total \# of students attending both (\# of students in previous fall) - (\#o <br> For all students deemed ineligible to re-en ineligibility using the following processes | us and current year to determine <br> e ineligible to re-enroll (those in their <br> evious fall and current fall <br> ll, DC PCSB will verify their <br> Ineligibility Verification Process <br> DC PCSB will use enrollment data to verify the student's grade in both school years. LEAs do not have to submit any documentation. <br> DC PCSB will verify that the student is not enrolled in another public school in DC. To show proof of out-of-state move, LEAs must submit one of the following for each student: <br> - Signed parent/guardian withdrawal form explicitly indicating out-of-state move. <br> - Signed parent/guardian withdrawal form indicating enrollment at an out-ofstate public school. <br> - Student records or records request from an out-of-state public school. <br> DC PCSB will use discipline data to verify a student's expulsion records. LEAs must submit documentation that the expulsion was for a federally recognized reason. |  |

| Indicator | Measure | Description | Components, Metric, Additional Notes | Rationale |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  | Students placed into private placement from <br> a DCPS-dependent LEA, as the student is <br> removed from the school's roster at that <br> point and placed into DCPS. DC PCSB will verify that the LEA is a <br> dependent charter and that the student <br> was transferred into a private <br> placement. LEAs may have to provide <br> documentation that the student was <br> placed in a private placement. |  |
|  |  |  | Notes: <br> Students who transfer within an LEA from one campus to another will be removed from both the numerator and denominator. <br> PK Only schools (not serving any grades higher than PK) do not receive a reenrollment score, and their data are not included in the floor and target calculation. <br> Documents used for multiple students (e.g., siblings) must include each student's name. |  |
| Stand-Alone, Untiered Measures | School <br> Chosen <br> Approved <br> Assessment <br> (PK-2 ) | Percentage of students meeting the performance metric for achievement or rate of growth from the start of the year through the end of the year. | Score as provided by school, aggregated by DC PCSB, and validated by schools. <br> DC PCSB allows schools to choose the assessments for mathematics and literacy that best fit the academic program and philosophy of the early childhood environment at the school. <br> DC PCSB maintains a list of Early Childhood Assessment in use at public charter schools for the PMF. The assessment displayed by the school is listed in this document and the document describes information on the assessments and how the publisher defines the assessments use to measure growth or achievement in the early childhood grades. <br> Note: <br> For display on the PMF, growth or achievement guidance is set by the publisher. In cases where there are subtests with no overall student score, the number of subtests meeting the achievement requirement out of total number of subtests taken are reported. | A measure of student achievement or student progress <br> It shows the level of student performance at the end of the year or if the student achieved a year of growth from the beginning of the year through the end of the year. <br> DC PCSB feels strongly that parents and stakeholders should have access to the academic information for early childhood grades but that most assessments were not designed to be used as |

| Indicator | Measure | Description | Components, Metric, Additional Notes | Rationale |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  | Level 4 Special Education students (Optional) <br> - Business Rule: Students who would likely qualify for the alternative PARCC are allowed to take a developmentally appropriate approved assessment, written for students of low cognitive ability. <br> If an LEA is planning to use an alternative assessment for accountability, the LEA must contact DC PCSB to receive approval. Students must be identified as Level 4 with significant cognitive disabilities. | part of a program evaluation. |
|  | Schoolapproved Mission Specific Goal (MSG) | The Mission Specific Goal measures a specific commitment of the LEA to the school. | This measure is optional. For a school to display its Mission Specific Goal (MSG) on the ES/ES/MS PMF, the LEA must submit an application through DC PCSB's Goal Amendment Application for review and approval. <br> Applicants must submit the completed application to DC PCSB by February 1 to be included for the following year's PMF. The goal will continue to be displayed until the LEA changes the mission of the charter or the measurement is no longer available. <br> Mission Specific data are provided by school, aggregated by DC PCSB (when possible), and validated by schools. If DC PCSB cannot aggregate the overall score, DC PCSB will validate the data. | Charter schools are awarded charters based on the innovation of their program. This display option allows schools the option to show the results of their MSG to all stakeholders. |

## Supplemental Materials

## Appendix A: Early Childhood Approved Assessment List

* Norm-referenced assessment achievement levels were set by linking percentile scores in $1^{\text {st }}$ and $2^{\text {nd }}$ grades with DC CAS proficient the following year.

| Title | Publisher | Publisher guidance on Achievement or Progress | PMF Scorecard <br> Displayed <br> Student Results | Subject <br> Approv ed for the PMF | Age Group per the Publisher (Approved for use on the PMF) | Description |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| AIMSweb | Pearson | Progress: Rates of Improvement (ROI) given in five separate sets of ROI growth norms for each grade and time interval that correspond to five ranges of initial scores (very low, low, average, high, and very high). Achievement: Two default cut scores are provided at each grade and season. The higher cut score separates Tier 1 and 2 and can be considered the target. | Progress: <br> Percentage of students earning 50\% growth based on initial score. <br> *Subtests: <br> Percentage of subtests resulting in $50 \%$ growth. | Math, Literacy | $\begin{aligned} & \text { Grades K- } \\ & 12(\mathrm{~K}-2) \end{aligned}$ | Norm-referenced assessment for Early Literacy, Reading, Early Numeracy, Mathematics, spelling and Writing offered through a web-based program for screening, progress monitoring, and data management. |
| Assessing <br> Math <br> Concepts <br> (AMC) | Math <br> Perspecti ves | Achievement: Proficient on every assessment per each grade. Kindergarten: proficient through \#6; $1^{\text {st }}$ grade: proficient through \#8; and $2^{\text {nd }}$ grade: proficient through \#9b | Achievement: <br> Percentage of students at end-of- year proficient levels | Math | (K-2) | This criterionreferenced assessment contains nine levels of math concepts for each grade to determine what a child knows and what the child still needs to learn. |

## Appendix B: Early Childhood/Elementary/Middle School PMF Assessment Proposal

Please complete this form for each new assessment you plan to administer that is not on the current list of approved PMF assessments and submit to Erin Kupferberg,
ekupferberg@dcpcsb.org.
School/Campus
Assessment
Contact Name and Email: $\qquad$
Please check the appropriate academic indicator(s) that the assessment will address:

| $\square$ Student Progress | $\square$ Student Achievement |  |
| :--- | :--- | :--- |
| $\square$ Literacy or language | $\square$ Mathematics | $\square$ Social-Emotional |

Please check assessment type (may be both):

| $\square$ Norm-referenced | $\square$ Criterion-referenced |
| :--- | :--- |

Please check the grade level(s) in which the assessment will be administered:

| $\square$ PK3 | $\square$ PK4 | $\square$ Kindergarten | $\square 1^{\text {st }}$ grade | $\square 2^{\text {nd }}$ grade | $\square$ Entire School |
| :--- | :--- | :--- | :--- | :--- | :--- |

Please answer each question below. If the assessment proposed is a new version of an existing approved assessment, only questions 1 and 4 need to be answered.

1. Please describe the assessment instrument materials in detail, using language from the test manufacturer (such as computer adaptive, one-on-one interview, paper/pencil assessment).
2. Please describe the plan/schedule for administration, scoring, data entry/analysis, and record keeping. How will student scores be reported (such as publisher report, schoolgenerated report)?
3. Which company/ institution published this assessment? Describe the findings of the research, validity, and reliability studies that have been conducted on this assessment.
4. According to the test publisher, what is the proficiency cut-off score for each grade for which the test will be administered? What is the suggested growth goal that the publisher determines is average growth for each grade for which the test will be administered? This explanation should indicate how the average student is expected to perform or grow.

Include all specific metrics provided by the publisher (such as NCE, standard score points, percentile, level of growth, low risk, age equivalency).

## The following items should be included with this form as attachments:

- Documentation from the publisher on proficiency cut-offs for growth and achievement (if it is a large file, please indicate the page number where the information can be found)
- A copy of the assessment to be administered (or a sample excerpt)
- Technical Manual if possible

High School PMF

DC PUBLIC CHARTER SCHOOL BOARD

## High School Performance Management Framework

This framework will be used as a common accountability measure for all high school campuses for school year 2015-16. The High School PMF covers grades 9 through 12. A school must have at least a grade 10 to be evaluated using the high school framework.

Exceptions to this framework:

- If the school has only grade 9 and middle school grades, it is measured using the EC/ES/MS PMF.
- If a high school does not contain the grade for which a common measure applies, the points associated with that measure are removed and the total possible points available are adjusted. For example, a school that terminates in grade 11 does not have graduation, SAT/ACT, AP, or college acceptance data. In this case, the school is evaluated against the remaining 72.5 points. Schools containing grade levels for which a common measure applies are held accountable for the relevant metric, even if they do not offer the measure. For example, a school that has grade 11 but does not offer the PSAT receives zero points on the PSAT metric.

## Indicators

For school year 2015-16, DC PCSB will use four indicators to measure academic performance for all schools serving grades 9-12:
(1) Student Progress: This indicator includes measures that capture student academic growth in English language arts and math on the state assessment from spring to spring.
(2) Student Achievement: This indicator includes measures that capture student academic achievement in English language arts and math. It is generally described as "percent of students scoring" at a grade-level standard.
(3) Gateway: This indicator includes measures that capture critical achievement and preparation for college and career readiness.
(4) School Environment: This indicator includes measures that capture a school's climate such as attendance rates, re-enrollment rate (as calculated from fall to fall), and grade 9 credits toward graduation.

These four core indicators of academic achievement apply to every school with different weights assigned to the indicators depending on the grade span of the school.

## Measures, Floors, and Targets

Measures are defined as "general instruments or means to assess performance in each area defined by an indicator." Each indicator has an approved set of measures that fall into each category. To assign points, each measure has a floor and a target in which points are achieved. Depending on the school's score on a specific measure and its position between the floor and target, it will receive incrementally more points the higher the score.

The floor determines the minimum value for which any points are awarded. Charter schools receive no points for values that are below the floor. The target determines the value at which the maximum points for a common measure are awarded. Charter schools receive no additional points for values that are above the target. Floors and targets are calculated using the formula in the following sections.

## Student Progress Indicator

The Office of the State Superintendent of Education (OSSE) has selected the PARCC as the state assessment for DC for students in grades 3 through 8 and high school. For high schools, the state assessment in English language arts (ELA) refers to the PARCC English II exam. The state assessment in mathematics refers to the PARCC Geometry or PARCC Integrated Math II exam, the two exams required by OSSE for high school students.

1. Measure: MGP captures the median growth of all public school students' progress by comparing changes in students' PARCC scores to changes made by other students with similar score histories on the PARCC in the previous year. Calculating MGP is a threestep process:
(1) A student growth percentile (SGP) is created for each student, which shows how that student performed in this year's assessment compared with other DC students who had similar performance in the last year's assessment. For example, if 20 students had a score of 340 in last year's PARCC test, a student who did better than 15 of those students in this year's test would have an SGP of 75, because that student did better than $75 \%$ of the students with a similar score on last year's assessment. Scores from all District students, including those at DCPS schools, are used to determine an academic peer group and to calculate SGPs.
(2) All of the students' SGP scores for a school are arrayed from high to low and the midpoint, or median, of these scores becomes the school's median growth percentile, or MGP; the higher the score, the more students are improving compared with students attending public schools in the District.
(3) DC PCSB calculates a two-year weighted average by averaging the school's MGP values from two consecutive years, giving more weight to the most recent year. The two-year weighted average is used to mitigate fluctuations in scores year to year.
2. Floor and Target: The floor for MGP is 30 , and the target is 65 . MGP is centered at 50 .

| Measure | Floor | Target |
| :--- | :--- | :--- |
| Median Growth Percentile - ELA | 30.0 | 65.0 |
| Median Growth Percentile - Math | 30.0 | 65.0 |

## Student Achievement Indicator

The Office of the State Superintendent of Education (OSSE) has selected the PARCC as the state assessment for DC for students in grades 3 through 8 and high school. For high schools, the state assessment in English language arts (ELA) refers to the PARCC English II exam. The state assessment in mathematics refers to the PARCC Geometry or PARCC Integrated Math II exam, which are the two exams required by OSSE for high school students. For the HS PMF Student Achievement Indicator, schools are measured by the percentage of students scoring level 3 (Approaching College and Career Readiness) and levels 4 and 5 (College and Career Ready) on the state assessment in both ELA and mathematics.

- Level 1: Did not yet meet expectations of Career and College Readiness
- Level 2: Partially met expectations of Career and College Readiness
- Level 3: Approached expectations of Career and College Readiness
- Level 4 and 5: Career and College Ready

1. Approaching College and Career Readiness Measure: Achievement Measures for high grades
a. Level 3 or above in ELA: The percentage of all students in all tested grades at the school achieving a level 3 or above on the PARCC assessment in ELA.
b. Level 3 or above in math: The percentage of all students in all tested grades achieving a level 3 or above on the PARCC assessment in math.

College and Career Readiness Measure: Achievement Measures for high grades
a. Level 4 or above in ELA: The percentage of all students in tested grades earning a level 4 or 5 on the PARCC assessment in ELA.
b. Level 4 or above in math: The percentage of all students in tested grades earning a level 4 or 5 on the PARCC assessment in math.
2. Floors and Targets
a. Approaching College and Career Readiness and Above: DC PCSB set an aspirational target of 100.0 for Level 3 and above.
b. College and Career Ready: The business rule for calculating the target for Level $4+$ is to take $25 \%$ of the difference of $100-90^{\text {th }}$ percentile and add it to the $90^{\text {th }}$ percentile for the measure.

The table below describes the business rule for determining the floor and target for both approached and college and career measures.

| Measure | Floor | Target Business Rule | Calculated Target |
| :---: | :---: | :---: | :---: |
| Level 3: Approaching College and <br> Career Readiness and Above in <br> ELA (all tested grades) | 0.0 | 100.0 | 100.0 |
| Level 3: Approaching College and <br> Career Readiness and Above in <br> Math (all tested grades) | 0.0 | 100.0 | 100.0 |

| Level 4 and 5: College and Career <br> Ready in ELA (all tested grades) | 0.0 | $\left(100-90^{\text {th }} \text { percentile) }\right)^{*} .25+$ <br> $90^{\text {th }}$ percentile | 72.5 |
| :---: | :---: | :---: | :---: |
| Level 4 and 5: College and <br> Career Ready in Math (all tested <br> grades) | 0.0 | $\left(100-90^{\text {th }} \text { percentile) }\right)^{*}$ <br> $90^{\text {th }}$ percentile | 43.9 |

## Gateway Indicator

This indicator includes measures that capture critical achievement for future success in college and careers, including the school's four- and five-year graduation rates; student performance on college entrance exams and Advanced Placement (AP) and/or International Baccalaureate (IB) exams; college credits earned through a school's dual enrollment program; and the school's college acceptance rate. Additionally, schools offering career and technical education (CTE) programs of study may include their completion rates. Below is a list of each of the measures included in this indicator.

Unless otherwise indicated, the floor for each measure is created using a three-year weighted average of public charter school performance to determine the bottom $10^{\text {th }}$ percentile of all charter schools. Data included in this calculation are for school year 2014-15, which, at the time of this printing, have not yet been released, and school years 2013-14 and 2012-13.

## High School Graduation Rates

- Measure: Four- and Five-year Adjusted Cohort Graduation Rate (ACGR).
- Target: The target is set at the aspirational goal of $100 \%$.

## College Entrance Exams

- Measure: The rate of students in grade 11 scoring "college ready" on the PSAT.
- Target: The target is set at $50 \%$, which is above the $90^{\text {th }}$ percentile.
- Measure: The rate of students in grade 12 scoring "college ready" on the SAT or ACT assessment.
- Target: The target is set at the aspirational goal of $75 \%$.

## College Acceptance Rate

- Measure: The rate of students in grade 12 earning full-time acceptance into a twoor four-year college or university.
- Target: The target is set at the aspirational goal of $100 \%$.

## Career and College Readiness

- Measure of college readiness: The rate of students passing AP and/or IB exams, and/or the rate of students earning college credit by taking college-level courses in high school through a dual enrollment program offered by the school.
- Floor and Target: The floor is a three-year weighted average of the $10^{\text {th }}$ percentile of school performance and the target is a three-year weighted average of the $90^{\text {th }}$ percentile of school performance.
- Measure of career readiness: The completion rate of students completing the courses of study in school-offered CTE program(s) and the certification rate of students who completed the program and earned industry-recognized certification(s).
- Floor and Targets: Given that no data were available to create the floors and targets based on historical performance, the Task Force determined the following:
i. The floor for the completion rate will be set at 0 and the target at $15 \%$.
ii. The floor and target are determined based on historical citywide data and the goals of the citywide CTE Strategic Plan.

| Measure | Floor | Target |
| :---: | :---: | :---: |
| Four-Year Graduation Rate <br> (Prior year Adjusted Cohort Graduation Rate) | 52.3 | 100.0 |
| Five-Year Graduation Rate <br> (Adjusted Cohort Graduation Rate) | 65.3 | 100.0 |
| PSAT Performance (Grade 11) | 4.0 | 50.0 |
| SAT/ACT Performance (Grade 12) | 11.9 | 75.0 |
| College Acceptance Rate | 70.0 | 100.0 |
| College Readiness: Advanced <br> Placement/International Baccalaureate/Dual <br> Enrollment Achievement | 0.0 | 45.4 |
| Career Readiness: ${ }^{25}$ CTE Certification Rate | 0.0 | 15.0 |
| Career Readiness: CTE Program of Study |  |  |
| Completion Rate | 25.0 | 75.0 |

* The 2014-15 data for these measures have not yet been finalized. Once they are finalized, the business rules will be applied and floors set. All of the targets are set as aspirational and are, therefore, included.

## Student Environment Indicator

This indicator measures key predictors of student progress and achievement, including attendance, re-enrollment, and $9^{\text {th }}$ grade credits on track for graduation in four years.

1. Attendance
a. Measure: DC PCSB measures attendance through the in-seat attendance (ISA) rate of all students attending the school.
b. Floor and Target: The floor is set at 82 the target at 92 .
2. Re-enrollment
a. Measure: Re-enrollment is calculated based on all eligible students who attended the school and were captured in the previous fall audit who return to the school and are captured in the school's current year audit. Please see the Data Sources and Methodology table for details on eligibility.
b. Floor and Target: The floor and target are calculated based on the previous three years of re-enrollment rates, where the floor is based on the $10^{\text {th }}$ percentile of school performance and the target is set at 90 .

[^14]c. Re-enrollment Rate Calculations with Campus Reconfigurations If an existing school is approved by DC PCSB's Board to reconfigure its campuses, the PMF re-enrollment rate is calculated only at the LEA level during the first year after the campus reconfigures. For example, if an LEA approved by DC PCSB to reconfigure its one campus spanning 6 through grade 12 into two campuses serving grade 6-8 and grades $9-12$, the re-enrollment rates for each campus during the subsequent year of reconfiguration will be the re-enrollment rate for the entire LEA, not each individual campus, and the re-enrollment rate will be the same for both campuses.
3. $9^{\text {th }}$ Grade on Track
a. Measure: The measure is the percentage of grade 9 students earning enough credits to be on track for graduation from high school within four years. In most cases, this means earning six credits in the first year of high school.
b. Floor and Target: The floor is a three-year weighted average of the $10^{\text {th }}$ percentile. The target is set at the aspirational goal of $100 \%$.

| Measure | Floor | Target |
| :---: | :---: | :---: |
| Attendance | 82.0 | 92.0 |
| Re-Enrollment | 72.1 | 90.0 |
| $9^{\text {th }}$ Grade on Track to Graduate | 56.4 | 100.0 |

* The 2014-15 data for these measures have not yet been finalized as the 2014-15 data are not yet finalized. Once they are finalized, the business rules will be applied and floors set.

## Additional Business Rules for Setting Floors and Targets

The floors will follow the business rules each year, with the following exceptions:

- A measure's floor will not rise by more than $33.3 \%$ in any given year. If the weighted average would cause the floor to rise more than $33 \%$, the floor will be artificially capped at $33.3 \%$.
- If the three-year weighted average floor decreases by more than $33.3 \%$, DC PCSB will decrease the floor by $33.3 \%$.
- If there is a significant change in the measure used, (e.g., a change in formula for graduation rates, the state adopts a new state assessment) the floors will be readjusted to the $10^{\text {th }}$ percentile of charter school performance for that new measure using only the year(s) when the new measure is applied and the results are publicly available. ${ }^{26}$ For example, for the PARCC, which was first administered in school year 2014-15, the floor will be calculated using only that year's data.
- When only two years of data are available as opposed to three years, the floor will be calculated based on the lowest $10^{\text {th }}$ percentile over the past two years, where both years have $50 \%$ of the weight.
- When one year of data is available, the floor will be calculated based on the lowest $10^{\text {th }}$ percentile in that year.

[^15]Targets will follow the business rules each year, with the following exceptions:

- If the calculated $90^{\text {th }}$ percentile is at or more than $33.3 \%$ above the current target, the target will be raised by $33.3 \%$
- If a measure is significantly changed (e.g., a new state assessment or a change in formula), and the target is currently not aspirational (e.g., 100\%), the target will be recalculated to match the $90^{\text {th }}$ percentile.
- When three years of archival data are not available, such as when a new measure is introduced or the formula is changed, one or two years of data will be used, until three years of data are available.
- If the calculated target exceeds $100 \%$, the target will remain at $100 \%$.

## Weights for Measures included in PMF Tier

Each measure has a specific approved weight, which describes how much the measure will impact the overall score.

## High School PMF (9-12) for Schools not Opting to include the Career and Technical Education (CTE) metric

| Weight | Indicator | Measure | Weight | Floor | Target |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 15\% | Student <br> Progress | Median Growth Percentile - ELA | 7.5\% | 30.0 | 65.0 |
|  |  | Median Growth Percentile - Math | 7.5\% | 30.0 | 65.0 |
| 25\% | Student Achievement | Level 3: Approaching College and Career Readiness and Above in ELA | 7.5\% | 0.0 | 100.0 |
|  |  | Level 3: Approaching College and Career Readiness and Above in Math | 7.5\% | 0.0 | 100.0 |
|  |  | Level 4 and 5: College and Career Ready in ELA | 5.0\% | 0.0 | 72.5 |
|  |  | Level 4 and 5 College and Career Ready in Math | 5.0\% | 0.0 | 43.9 |
| 35\% | Gateway | Four-Year Graduation Rate (Prior year Adjusted Cohort Graduation Rate) | 3\% | 52.3 | 100.0 |
|  |  | Five-Year Graduation Rate (Adjusted Cohort Graduation Rate) | 4.5\% | 65.3 | 100.0 |
|  |  | PSAT Performance (Grade 11) | 7.5\% | 4.0 | 50.0 |
|  |  | SAT Performance (Grade 12) | 7.5\% | 11.9 | 75.0 |
|  |  | College Acceptance Rate | 7.5\% | 70.0 | 100.0 |

| Weight | Indicator | Measure | Weight | Floor | Target |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | College Readiness: Advanced <br> Placement/International <br> Baccalaureate/Dual Enrollment <br> Achievement | $5 \%$ | 0.0 | 45.4 |
|  |  | Attendance | $10 \%$ | 82.0 | 92.0 |
| $25 \%$ | School <br> Environment | Re-Enrollment | $10 \%$ | 72.1 | 90.0 |
|  |  | $9^{\text {th }}$ Grade on Track to Graduate | $5 \%$ | 56.4 | 100.0 |

* The 2014-15 data for these measures have not yet been finalized. Once they are finalized, the business rules will be applied and floors set.

## High School PMF (9-12) for Schools Opting to include the CTE metric

| Weight | Indicator | Measure | Weight | Floor | Target |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 15\% | Student <br> Progress | Median Growth Percentile - ELA | 7.5\% | 30.0 | 65.0 |
|  |  | Median Growth Percentile - Math | 7.5\% | 30.0 | 65.0 |
| 25\% | Student Achievement | Level 3: Approaching College and Career Readiness and Above in ELA | 7.5\% | 0.0 | 100.0 |
|  |  | Level 3: Approaching College and Career Readiness and Above in Math | 7.5\% | 0.0 | 100.0 |
|  |  | Level 4 and 5: College and Career Ready in ELA | 5.0\% | 0.0 | 72.5 |
|  |  | Level 4 and 5 College and Career Ready in Math | 5.0\% | 0.0 | 43.9 |
| 35\% | Gateway | 4-Year Graduation Rate (Prior year Adjusted Cohort Graduation Rate) | 3.0\% | 52.3 | 100.0 |
|  |  | 5-Year Graduation Rate (Adjusted Cohort Graduation Rate) | 4.5\% | 65.3 | 100.0 |
|  |  | PSAT Performance (Grade 11) | 7.5\% | 4.0 | 50.0 |
|  |  | SAT Performance (Grade 12) | 7.5\% | 11.9 | 75.0 |
|  |  | College Acceptance Rate | 7.5\% | 70.0 | 100.0 |
|  |  | College Readiness: Advanced Placement/International Baccalaureate/Dual Enrollment Achievement | 3\% | 0.0 | 45.4 |
|  |  | Career Readiness: CTE Certification Rate | 1\% | 0.0 | 15.0 |

| Gateway | Career Readiness: <br> CTE <br> Certificatio n Rate | Percentage of students who complete CTE programs of study that earn industryrecognized certifications. | Components <br> \# CTE certifications earned in the current school year: <br> - A CTE certification must be earned in an eligible CTE career sector per the Strategic Plan for Career and Technical Education in the District of Columbia (CTE Strategic Plan) ${ }^{27}$ <br> - A CTE certification exam is the test to receive an industry-recognized certification <br> - Earning a certification means completing all the requirements and receiving the certification <br> \# of CTE completers in the current school year: <br> - A CTE completer is a student who has completed all of the course in a CTE program of study and met all of the standards of proficiency <br> Metric $\left[\frac{\text { \# of CTE certifications earned }}{\text { \# of CTE completers }}\right] * 100$ <br> Notes <br> - Schools may choose to include the Career Readiness measures in their PMF (CTE Certification Rate and CTE Program of Study Completion Rate). <br> - There will be a summer deadline for schools to declare whether they would like to include the Career Readiness measure ahead of the August board meeting. | This indicator captures the percentage of students who are earning CTE industryrecognized certifications, which can make them more competitive job applicants. <br> Terms and definitions follow the District's Strategic Plan for CTE. |

[^16]| Indicator | Measure | Description | Components, Metric, Additional Notes | Rationale |
| :---: | :---: | :---: | :---: | :---: |
| Gateway | Career <br> Readiness: <br> CTE <br> Program of Study Completion Rate | Percentage of students participating in CTE programs of study and eligible to complete those programs of study that finish the CTE program of study. | Components <br> \# of CTE completers in the current school year: <br> - A CTE completer is a student who has completed all of the course in a CTE program of study and met all of the standards of proficiency \# of CTE participants eligible for completion in the current school year: <br> - A CTE participant is a student who has completed the first course and enrolled in the second course of a CTE program of study <br> - CTE programs of study must be in an eligible career sector per the CTE Strategic Plan ${ }^{28}$ <br> - Programs of study must be sequences of at least three courses <br> Metric <br> \# of CTE completers <br> \# of CTE participants eligible for completion $* 100$ <br> Notes <br> - Schools may choose to include the Career Readiness measures in their PMF (CTE Certification Rate and CTE Program of Study Completion Rate). <br> - There will be a summer deadline for schools to declare whether they would like to include the Career Readiness measure ahead of the August board meeting. | This indicator captures the percentage of students who complete CTE programs of study in Eligible Career Sectors, which can make them more competitive job applicants. <br> Terms and definitions follow the District's Strategic Plan for CTE. |

[^17]| Indicator | Measure | Description | Components, Metric, Additional Notes | Rationale |
| :---: | :---: | :---: | :---: | :---: |
| Gateway | 4-Year Graduation Rate | 4-year Adjusted Cohort Graduation Rate calculated by OSSE and validated by schools. | Rate as provided by OSSE and validated by schools: $\left[\begin{array}{c} \text { \# of studentsin cohort who graduated by June or } \\ \text { August } 2015 \text { with a standard diploma } \\ \text { \# of first time grade } 9 \text { studentsin Fall 2011+ } \\ \text { transfers - in - transfers - out - emigrants - students } \\ \text { who pass away } \end{array}\right] * 100$ <br> Notes <br> - DC PCSB publishes the 4-year ACGR one year behind so that the 4 -year and 5-year rates report on the same cohort of students. <br> - If a school has a grade 12 for the first, then the current year's four-year ACGR is included (using the Fall 2012 cohort) | Aligned with OSSE standards |
| Gateway | 5-Year <br> Graduation Rate | 5-year Adjusted Cohort <br> Graduation Rate (as of October) calculated by OSSE and validated by schools. | Rate as provided by OSSE and validated by schools: | Aligned with OSSE standards <br> Many high schools have ninth graders who are far below grade level and take five years (or more) to earn a high school diploma. |

| Indicator | Measure | Description | Components, Metric, Additional Notes | Rationale |
| :---: | :---: | :---: | :---: | :---: |
| Gateway | PSAT <br> Performanc <br> e <br> (HS) | Percentage of current grade 11 students scoring at a collegeready level on the PSAT. | Components <br> - PSAT data for current grade 11 students <br> - Grade 11 enrollment as of the end of the school year pulled from ProActive/ADT on a date determined by DC PCSB <br> Metric $\left[\begin{array}{l} \# \text { of grade } 11 \text { students scoring at least equivalent to the pre-October } 2015 \\ \text { score of } 80 \text { (combined math and critical reading/writing) on the PSAT } \end{array}\right] \times 100$ <br> Notes <br> - College Board has not yet published new college-ready benchmarks for the redesigned PSAT. DC PCSB will use the College Board's concordance tables to equate the October 2015 PSAT scores with the former score of 80 (combined math and reading). <br> - Any HS with the grade 11 that does not offer the PSAT exam is given 0 points on this metric. <br> - Students who meet the criteria to be in the denominator but have not taken the PSAT exam are still included in this measure <br> - Grades 9 and 10 PSAT scores are not included because they are standardized to a different scale. <br> - Students with disabilities in non-public placements are excluded from this measure. <br> - Students who qualify for the alternative state assessment (i.e., the NCSC assessment) are not included in this measure |  |

| Gateway | SAT and <br> ACT <br> Performanc <br> e | Percentage of current grade 12 students at a college ready level on the SAT or ACT. | Components <br> - Every SAT or ACT score for current grade 12 students, including when it was taken in previous years <br> - Grade 12 enrollment as of the end of the school year pulled from ProActive/ADT on a date determined by DC PCSB <br> Metric <br> Notes <br> - College Board has not yet published new college-ready benchmarks for the redesigned SAT. For students taking the redesigned SAT (March 2016 and later), DC PCSB will use the College Board's concordance tables to equate the score with the former score of 800 (combined math and reading) on the SAT. <br> - Because students often take the SAT and ACT multiple times to improve their scores, DC PCSB will count the student as having met this measure if the student earns an 800 on the SAT or 16 on the ACT at any time in his or her high school career even if the score is earned while the student attended a different high school. <br> - DC PCSB uses a student's highest score on each section of the SAT even if those scores occurred on different test dates. <br> - Students who have not taken the SAT or ACT exams are given 0 points on this metric. <br> - Students with disabilities in non-public placements are excluded from this measure. <br> - Students who qualify for the alternative state assessment (i.e., the NCSC assessment) are not included in this measure | For reference visit: SAT-ACT concordance table: http://www.act.org/aap/conc ordance/ |
| :---: | :---: | :---: | :---: | :---: |

| Indicator | Measure | Description | Components, Metric, Additional Notes | Rationale |
| :---: | :---: | :---: | :---: | :---: |
| Gateway | College Acceptance | Percentage of high school seniors accepted to a full-time college or university. | Components <br> - Unique college acceptances <br> - Students on the current year's certified graduates list <br> Metric $\left[\frac{\# \text { of graduating students accepted to a full-time college or university }}{\# \text { of graduates }}\right] \times 100$ <br> Notes <br> - Acceptances must be from a degree-granting institution of higher education. <br> - College acceptances must be from the current school year unless the college or university indicates that an earlier acceptance is still valid. <br> - Students with disabilities in non-public placements are excluded from this measure. <br> - Acceptable documentation includes only final acceptance letters (not conditional or provisional letters). <br> - Conditions or provisions solely related to non-academic factors, such as a background check, will count as full acceptances for the HS PMF. <br> - DC PCSB recognizes that all college acceptances are conditional upon receipt of a final high school transcript or diploma, so a condition or provision solely based on receipt of a final high school transcript or diploma are considered full acceptances for the HS PMF. <br> - Students who qualify for the alternative state assessment (i.e., the NCSC assessment) are not included in this measure | College acceptance is a necessary step to college enrollment and has been defined to be an important measure of student success. |
| School Environment | Attendance | In-seat attendance rate | Components <br> - Attendance by grade span <br> - Aligns with DCPS's calculation <br> Metric $\left[\frac{\# \text { of day s present }}{\# \text { day s enrolled }}\right] * 100$ |  |

$\left.\begin{array}{|l|l|l|l|l|}\hline & & \begin{array}{l}\text { removed from the school's roster at that } \\ \text { point and placed into DCPS. }\end{array} & \begin{array}{l}\text { transferred into a private placement. LEAs may } \\ \text { have to provide documentation that the student } \\ \text { was placed in a private placement. }\end{array} \\ \hline \begin{array}{ll}\text { Notes } \\ \text { Students who transfer within an LEA from one campus to another (excluding from a } \\ \text { high school campus to an adult education campus) will be removed from both the } \\ \text { numerator and denominator. }\end{array} \\ \text { Documents used for multiples (e.g., siblings) must include each student's name. }\end{array}\right\}$

| School Environ ment | $9^{\text {th }}$ Grade on Track to graduate | Percentage of grade 9 students receiving enough credits to be on track to meet OSSE graduation requirements and the individual LEA graduation requirements in 4 years. | Components <br> - Grade 9 enrollment as of the end of the school year pulled from ProActive/ADT on a date determined by DC PCSB. <br> - Credits based on the standard DC State Board of Education (SBOE) requirements: Students must pass 6 credits or the equivalent, consisting of Algebra I, an English course, a science course, a social studies course that is among World History, US History, US Government or DC History, and two additional credits (e.g., elective courses). <br> Metric $\left[\begin{array}{c} \text { \# of grade } 9 \text { students receiving enough credits to be on } \\ \text { track to meet LEA graduation requirements in four years } \\ \# \text { of grade } 9 \text { students } \end{array}\right] \times 100$ <br> Notes <br> - To earn points for being "on track," a student must have earned a minimum number of credits to allow him or her to complete high school in four years without taking summer school past grade 9 or classes outside of the published school day hours required of all students (i.e., mandatory "zero period" or "after school" or "Saturday school" if it is not required of every student). <br> - DC PCSB will use LEA promotion policies as documented in its fall Compliance Review Epicenter submission to DC PCSB to determine $9^{\text {th }}$ Grade on Track status. <br> - Students on the individualized education program (IEP) certificate track will be considered on track if they have made sufficient progress toward IEP goals as determined by the school's student support team. <br> - All current grade 9 students are included regardless of repeater status. <br> - Self-reported by schools based on grade 9 transcripts. <br> - DC PCSB validates a $20 \%$ sample of transcripts; if there are discrepancies, DC PCSB will validate $100 \%$ of records. <br> - Students with disabilities in non-public placements are excluded from this measure. |
| :---: | :---: | :---: | :---: |

Adult Education PMF

## Adult Education Performance Management Framework

The Adult Education Performance Management Framework (AE PMF) will be used as a common accountability measure for adult education charter schools for school year 2015-16.

Each LEA serving adult education populations selected one of two program years to report data based on its program cycle. The following table lists the program year that each LEA selected for school year 2015-16:

| Cohort 1 | Cohort 2 |
| :--- | :--- |
| Program Year: July 1 - June 30 | Program Year: September 1 - August 31 |
| Academy of Hope Public Charter School | Community College Preparatory Academy PCS |
| (PCS) | LAYC Career Academy PCS |
| Briya PCS | Maya Angelou PCS - Young Adult Learning <br> Carlos Rosario International PCS <br>  <br>  <br>  <br>  <br>  <br> The Nexter Step/El Próximo Paso PCS <br> YouthBuild PCS |

## Indicators

For school year 2015-16 DC PCSB will use four indicators to measure academic performance for all adult education charter schools to develop the school's overall tier:
(1) Student Progress: This indicator captures learning gains of students taking part in either adult basic education (ABE) or English as a second language (ESL) programs. Student progress is measured by tests that are valid and reliable for adults and disengaged youth.
(2) Student Achievement: This indicator reflects the rate of students who completed a program of study and earned a secondary credential. In most cases this refers to students earning a General Education Development (GED) credential or the National External Diploma Program (NEDP).
(3) College and Career Readiness: This indicator captures whether students who exit an adult education school are employed or enroll in a postsecondary degree or certification program.
(4) Leading Indicators: This indicator captures the school's attendance rates for its enrolled students and the rate at which it is retaining students at the school.

An additional indicator, Mission Specific Goals, assesses aspects of the school program otherwise not captured in the AE PMF. Since each school has a different emphasis and approach to adult learning, some parts of an adult education program may not be fully captured in the common measures above. Schools that offer an additional assessment (e.g., the Spanish TABE), offer Career and Technical Education certifications (e.g., OSHA-10, Microsoft Office Specialist), or performance-based measures may elect to include a missions specific goal on the AE PMF. However, this indicator is not part of the tier but is displayed on the PMF scorecard.

## Weights

Each indicator of this framework has the same weight in developing an overall tier. A school must earn at least $65 \%$ of the possible points in each indicator to ultimately earn a score of Tier 1.

- For the Leading Indicator, there are two measures and each contributes the same amount of weight when calculating the overall score for the indicator, i.e., the two rates each contribute $50 \%$ of the possible points toward the final score for the indicator.
- For Student Progress and College and Career Readiness indicators, there are also multiple measures. These indicators are calculated by taking the weighted average of the measures. For example, if three times as many students take part in a school's adult basic education (ABE) program as in its English as a second language (ESL) program, the passage rate for ABE is weighted three times as much as the ESL.
- For student achievement, there is only one measure, weighted at $100 \%$.
- Mission Specific is not included in the calculation of the tier, and therefore has no weight.

## Measures, Floors, and Targets for the Tiered Portion of the AE PMF

Measures are defined as "general instruments or means to assess performance in each area defined by an indicator." Each indicator has an approved set of measures that fall into each category. To assign points, each measure has a floor and a target in which points are achieved. The floor determines the minimum value for which any points are awarded. Schools receive no points for values that are below the floor. The target determines the value at which the maximum points for a common measure are awarded. Schools receive no additional points for values that are above the target. Floors and targets are calculated using the formulas in the following sections. Depending on the school's score on a specific measure and its position between the floor and target, it will receive incrementally more points the higher the score.

## Student Progress Indicator

Student progress is a measure of student growth over the course of a program year. For adult education schools, DC PCSB uses educational functioning level gains on assessments approved by the US Department of Education's National Reporting Service (NRS) as the growth measure.

1. Adult Basic Education (ABE) Progress Measure: This measure captures the rate for students gaining one or more level on appropriate tests to measure ABE progress. Progress is captured based on a student's pre- and post-tests, and points are earned only when a post-test outcome puts the student at the next level of ABE.
2. English as Second Language (ESL) Progress Measure: This measure captures the rate for students gaining one or more level on appropriate tests to measure ESL progress. Progress is captured based on a student's pre- and post-tests, and points are earned only when a post-test outcome puts the student at the next level of ESL.
3. Floor and Target: The floor and target are determined for each starting educational functioning level separately. Floors are minimum percentage of students who must pass a
level in order for the school to earn points. Targets are the minimum percentage of students who must pass a level for the school to earn all of the points.
4. Floors and targets were developed using 2011-12 data reported from the Office of Vocational and Adult Education (OVAE). The floor for each level assessment is calculated using national data from the bottom $10^{\text {th }}$ percentile of all states. The targets are created using Maryland's 2011-12 performance $+1 \%$ as the cutoff to earn $65 \%$ of the weighted percent of range for each measure.
(1) If the range between floors and targets is less than 30 points, the floor is lowered so that there is at least a 30-point spread.
(2) If Maryland is already at $100 \%$, the target remains at $100 \%$ and is not raised to $101 \%$.

Each measure is calculated by adding the points earned for students earning at each ABE or ESL level together and then finally combined to form a single progress rate of all students weighted by the number of students at each level. Levels with less than ten students are not displayed on a school's scorecard, but are used in calculating the overall ABE, ESL, and combined indicator scores. Eligible students without a NRS -approved assessment pre-test, will be weighted as a zero for Student Progress and Retention.

Eligible students for the Student Progress measure are students:

- Enrolled in an ABE or ESL program;
- Enrolled for at least 15 consecutive calendar days and receiving at least 12 hours of service within the 15 days; and
- Enrolled at least two months before the end of the program year

Note: Students who took an NRS-approved assessment in the prior year less than three months before the start of the current year may use that assessment as their pre-test in the current year

| Measure: Adult Basic Education | Floor | Target | Weight |
| :--- | :---: | :---: | :---: |
| ABE Level 1: Beginning ABE Literacy | 0.0 | 100.0 | \# of test takers |
| ABE Level 2: Beginning Basic Education | 19.8 | 100.0 | \# of test takers |
| ABE Level 3: Low Intermediate Basic Education | 36.5 | 86.5 | \# of test takers |
| ABE Level 4: High Intermediate Basic Education | 25.0 | 65.0 | \# of test takers |
| ABE Level 5: Low Adult Secondary Education | 0.0 | 100.0 | \# of test takers |

| Measure: English as a Second Language | Floor | Target | Weight |
| :--- | :---: | :---: | :---: |
| ESL Level 1: Beginning ESL Literacy | 26.7 | 100.0 | \# of test takers |
| ESL Level 2: Low Beginning ESL | 63.5 | 93.5 | \# of test takers |
| ESL Level 3: High Beginning ESL | 47.8 | 77.8 | \# of test takers |
| ESL Level 4: Low Intermediate ESL | 35.7 | 65.7 | \# of test takers |

| ESL Level 5: High Intermediate ESL | 32.8 | 62.8 | \# of test takers |
| :--- | :---: | :---: | :---: |
| ESL Level 6: Advanced ESL | 13.2 | 49.8 | \# of test takers |

## Student Achievement Indicator

This indicator reflects the rate of students who completed a program of study and earned a secondary credential. In most cases this refers to students earning a General Education Development (GED) credential or the National External Diploma Program (NEDP).

1. Measure: This measure captures the percentage of eligible students who earned a GED, and the percentage of students who earned a high school diploma or NEDP.
2. Floor and Target: The floor is zero, and the target 100.

| Measure | Floor | Target | Weight |
| :--- | :---: | :---: | :---: |
| Obtain secondary credential | 0.0 | 100.0 | $100 \%$ |

## College and Career Readiness Indicator

This indicator includes measures that capture students' employment outcomes or entry into postsecondary education. It looks at whether students who entered the adult education program either retained or entered a job or entered postsecondary education or training after exiting the program. Realizing that it is hard to follow up with every student who exited a program, schools can earn points for this measure so long as they have surveyed at least $50 \%$ of their exiting students. Conversely, schools that do not survey at least $50 \%$ of their exiting students earn zero points for this indicator.

1. Entered Employment or Postsecondary Measure: This measure captures the percentage of students without a job when they entered the school who are employed in the first quarter after the quarter of exit from the adult education program or enrolled in a postsecondary school or training program before the end of the program year.
2. Retained Employment or Entered Postsecondary Measure: This measure captures the percentage of students entering an adult education school with a job who are still employed in the third quarter after the quarter of exit from the adult education program or who entered postsecondary education or training before the end of the program year.
3. Entered Postsecondary (Prior Program Year) Measure: This measure captures the percentage of students not captured in the previous two measures who earned a secondary credential in the prior program year and entered postsecondary education or training after exiting the adult education program.
4. Floor and Target: The floor is calculated using a three-year weighted average ${ }^{29}$ of the $10^{\text {th }}$ percentile of performance on all adult education schools, and the target is calculated based on a three-year weighted average of the $90^{\text {th }}$ percentile of performance.

| Measure | Floor | Target | Weight |
| :--- | :--- | :--- | :--- |

[^18]| Entered Employment or Postsecondary | 0.0 | 75.0 | \# of exited students unemployed <br> at entry into the school's <br> program |
| :--- | :---: | :---: | :---: |
| Retained Employment or Entered <br> Postsecondary | 39.8 | 69.8 | \# of exited students employed at <br> entry into the school's program |
| Prior Program Year students who Entered <br> Postsecondary | 0.0 | 75.0 | \# of students who exited the <br> program the prior year with a <br> credential but were not captured <br> in either of the previous <br> measures |

## Leading Indicators

This indicator is made up of attendance and student retention both key predictors of students making academic gains in the program.

1. Attendance
a. Measure: DC PCSB measures attendance through the average in-seat attendance (ISA) rate of all students attending a school's program.
b. Floor and Target: The floor and target are calculated based on the previous three years of ISA rates, where the floor is set at the $10^{\text {th }}$ percentile of school performance and the target is set at the $90^{\text {th }}$ percentile of school performance, using a three-year weighted average ${ }^{30}$.
a. The minimum range between the floor and target must be 10 points. If the range between the calculated floor and target is less than 10 points, the floor will be lowered by 10 points from the target.
2. Retention
a. Measure: Retention is calculated based on whether students enrolled in a program who took the pre-test also took the post-test. All students who enter adult education programs receive a pre-test to assess their skill level. Once students have completed a cycle of instruction, which varies by school, they take a posttest. This measure is the percentage of students who stay at an adult education school long enough to complete a single cycle of instruction.
b. Floor and Target: The floor and target is calculated using the same methodology as the Student Progress indicator.

| Measure | Floor | Target | Weight |
| :---: | :---: | :---: | :---: |
| Attendance | 49.5 | 70.0 | $50 \%$ |
| Retention | 43.3 | 76.7 | $50 \%$ |

[^19]
## Mission Specific Indicator (Untiered)

Adult education schools may display a Mission Specific Goal on the PMF. These data are not included within the tiered PMF as they are unique to the individual school. Schools choosing to display a Mission Specific Goal in the AE PMF work with DC PCSB at the start of the school year to determine their Mission Specific Goals and complete the Adult Education PMF Selection Form (Appendix E). The PMF scorecard displays the percentage of students meeting each Mission Specific Goal. There are three types of Mission Specific Goals for the AE PMF:

- Assessments - goals using assessments other than the NRS-approved assessments reporting math and/or reading gains as a grade-level equivalency score.
- CTE certifications - industry-recognized certifications that can help to advance students' employment opportunities.
- Other performance-based measures - measures that are unique to a school's programs not otherwise captured in the PMF.

All adult education schools are measured using the same framework. A score between 0$100 \%$ is calculated for each indicator. When more than one measure is included in an indicator, the score is either weighted by student cohort size or the measures each have equal weight. At no time is a school given an overall score other than a final tier of 1,2 or 3 . A school must earn at least $65 \%$ of the possible points for each indicator to score a Tier 1.

| Indicator | Measure | Weight | Floor | Target |
| :---: | :---: | :---: | :---: | :---: |
| Student <br> Progress | Adult Basic Education (ABE) takers in each ABE level | ights of each leve | pend | of test |
|  | ABE level 1 | Based on \# of test takers | 0.0 | 100.0 |
|  | ABE level 2 |  | 19.8 | 100.0 |
|  | ABE level 3 |  | 36.5 | 86.5 |
|  | ABE level 4 |  | 25.0 | 65.0 |
|  | ABE level 5 |  | 0.0 | 100.0 |
|  | English as a Second Language (ESL) - Weights of each level are dependent on \# o test takers in each ESL level |  |  |  |
|  | ESL level 0 | Based on \# of test takers | 26.7 | 100.0 |
|  | ESL level 1 |  | 26.7 | 100.0 |
|  | ESL level 2 |  | 63.5 | 93.5 |
|  | ESL level 3 |  | 47.8 | 77.8 |
|  | ESL level 4 |  | 35.7 | 65.7 |
|  | ESL level 5 |  | 32.8 | 62.8 |
|  | ESL level 6 |  | 13.2 | 49.8 |
| Student Achievement | Obtaining Secondary Credential (GED or NEDP) | 100\% | 0.0 | 100.0 |
| College and Career Readiness | Entered Employment or Postsecondary | Based on \# of students | 0.0 | 75.0 |
|  | Retained Employment or Entered Postsecondary | Based on \# of students | 39.8 | 69.8 |

| Indicator | Measure | Weight | Floor | Target |
| :---: | :---: | :---: | :---: | :---: |
|  | Prior Program Year students <br> who Entered Postsecondary | Based on \# of <br> students | 0.0 | 75.0 |
| School <br> Environment | Attendance | $50 \%$ | 49.5 | 70.0 |
|  | Retention | $50 \%$ | 43.3 | 76.7 |

A school that does not offer a particular program or has no students in a given year partake in a particular program, such as GED preparation courses, or ESL programming, will receive no points for the measure, with $100 \%$ of the weight being given to the remaining measure(s) within the indicator. If a school does not offer a program resulting in either a GED or NEDP, the school will not receive a score for that indicator.

Data Sources and Methodology

| Indicator | Measure | Description | Components, Method, Additional Notes | Rationale |
| :---: | :---: | :---: | :---: | :---: |
| Student <br> Progress | Educatio <br> nal gain using educatio nal functioni ng levels (EFLs) | Percentage of adult students who complete the ABE or ESL level at which they entered by end of program year. | Components <br> - Students with both a pre-test and posttest score on an NRS approved assessment who attended at least 15 consecutive calendar days and receive at least 12 hours of service within the 15 days; and <br> Enrolled at least two months before the end of the program year. <br> - Students who gained at least one EFL based on NRS assessment cut scores <br> Metric <br> [\# of students gaining at least one EFL from th to the post-test by the end of the program \# of students with a pre-test and post-t <br> Notes <br> - Students are assigned to an NRS educational functioning level (EFL) based on their pre-test and post-test using the cut scores identified by assessment and subject according to the February 2015 update. ABE and ESL levels are determined by the scores students earn on the TABE and CASAS assessments. Please see Appendix C for detailed information on the cut scores for each level. <br> - Schools should report progress for each student based on the subject on which each student had the lowest pretest NRS EFL or grade level equivalent score. <br> - For students who have a lowest pretest score at the same NRS EFL and grade level equivalent on multiple subjects, schools may choose which subject to report on for progress. <br> - Students are counted as meeting the student progress metric if their posttest ABE or ESL level is greater than their pre-test ABE or ESL level. <br> - Because there are observed scores below the minimum cut scores for ESL Level 1 on the TABE CLAS-E, an ESL Level 0 was created for students participating in this assessment scoring beneath 225 in | This measure reflects learning gains as measured by tests that are valid and reliable for adults and disengaged youth. Participants make significant educational gains that demonstrate progress toward their educational, employment, and postsecondary education and training goals. Programs will report educational gains using assessments validated for use with the adult population and aligned with the EFLs as described by the National Reporting System (NRS) for Adult Education. See https://www.federalregis ter.gov/articles/2013/12/ 12/2013-29709/tests-determined-to-be-suitable-for-use-in-the-national-reporting-system-for-adult-education\#h-10 for a list of NRS-approved assessments. |

| Indicator | Measure | Description | Components, Method, Additional Notes | Rationale |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  | reading and writing and beneath 230 in listening and speaking. Gaining a level is determined by students moving up to ESL Level 1 or higher. <br> - If a student has a pre-test score that is below ABE level 1, above ABE 5, or above ESL 6, the student is not included in the measure. <br> - Students with a pre-test score in ABE 5 or ESL 6 must score at least one point above the score range to qualify as progressing beyond ABE 5 and ESL 6. <br> - If a student is in both the ABE and ESL programs and takes both assessments, then DC PCSB will use the ABE assessment for this measure if the student scores at ESL level 4 or higher on the pre-test. If the student scores at ESL level 3 or below on the pre-test, then DC PCSB will use the ESL assessment. <br> - Schools must report on all students who receive 15 consecutive days and at least 12 hours of service. <br> - Students enrolled in a school's ABE and/or ESL program without a NRSapproved assessment pre-test, will be weighted as a zero for Student Progress. |  |
| Student Achievem ent | GED or <br> state- <br> recogniz <br> ed <br> equivale <br> nt <br> attainme <br> nt | Percentage of students attempting and passing the GED or staterecognized equivalent in the program year | Components <br> - Students earning an NEDP diploma, students in the NEDP assessment phase who exit the school, and students taking all four GED tests in the program year <br> - Students earning a GED or staterecognized secondary diploma in the program year <br> Metric <br> Notes <br> - Students are counted as meeting the Student Achievement metric if their | This measure reflects the attainment of a GED or the state-recognized equivalent. This measure reflects whether students have obtained the skills needed to get a job, retain a job, or attend college without needing remedial classes. |

| Indicator | Measure | Description | Components, Method, Additional Notes | Rationale |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  | GED result indicates that all four tests were attempted and passed. Students are counted as not meeting the student achievement metric if their GED result indicates that all four tests were attempted and any were failed. <br> - DC PCSB gives credit to students earning a Spanish or English GED. <br> - Students are also counted if they earn the NEDP. Students are counted as meeting the Student Achievement metric if they earn the NEDP diploma. Students are counted as not meeting the student achievement metric if they are in the assessment phase of the NEDP and exit without earning the NEDP diploma. <br> - Students may take some of the four GED tests in a prior program year. They will count for this measure if they complete their fourth GED test in the current program year. <br> - DC PCSB works with OSSE to gather data and documentation on students taking all four GED tests and/or in the assessment phase of the NEDP. OSSE data and school data are combined to determine students included in the metric. If there is a discrepancy between school and OSSE data, the school should provide additional documentation. |  |

| Indicator | Measure | Description | Components, Method, Additional Notes | Rationale |
| :---: | :---: | :---: | :---: | :---: |
| College <br> and <br> Career <br> Readiness | Entered <br> Employ ment or Entered Postseco ndary | Percentage of adult students who are in the labor force but enter the program without a job and either a) obtain a job after exiting the program or b) obtain a job while they are enrolled in the program and still hold a job during the first quarter of exit from the program or <br> c) enroll in a postsecondar y <br> educational, occupational skills training program, or an apprenticesh ip training program. <br> Schools must report the required measure on all students who receive 12 hours or more of service. | Components <br> - Students who exited the program and were not employed when they entered the program <br> - Students who are employed one quarter after their exit quarter or who have entered postsecondary education or training before the end of the program year <br> Metric <br> [ Students who are employed one quarter after ex postsecondary education or training before the en Students who were not employed at entry prior quarter 4 or current quarters <br> Notes <br> - Schools must report the on all students who receive 12 hours or more of service. <br> - School must follow up with eligible students one quarter after they exit the program. For additional details, see Appendix D. <br> - Schools are expected to develop and administer surveys to track the college and career outcomes for their students after they exit the program. Results of these surveys should be documented and saved for data collection and validation cycles by DC PCSB. Questions that every school should ask on these surveys are found in Appendix F. <br> - Students are counted as meeting the College and Career Readiness metric if the school's total response rate for this metric is at least $50 \%$. <br> - If a school does not meet the $50 \%$ response rate for this measure, the school will receive zero points for the measure weighted by $50 \%$ of the students who qualify for the measure. <br> - If a school does not have the survey results documentation for a student, | This measure reflects the number of students who exit the program and enter employment and/or enter a postsecondary program. Schools will receive points if students either enter employment or a postsecondary program. |

| Indicator | Measure | Description | Components, Method, Additional Notes | Rationale |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  | the student is treated as a nonresponse. <br> - If a students is non-response in the school's survey results, but the student's outcomes are captured via other valid means (e.g., Jacob France Institute or National Student Clearinghouse data), then the student will be counted as having the outcome. <br> - Students are excluded from this metric and the survey response rate if they are identified as being out of the labor force (see definition below). <br> - If a student updates his/her labor force status for maternity leave, chronic illness or any other reason, then the school is required to provide documentation of this update to DC PCSB. Schools should not automatically classify students who go on maternity leave as withdrawing from the labor force. DC PCSB will review these requests for a modification to labor force participation on a case-by-case basis during the annual data collection cycle. <br> - If a school graduates students with a Spanish GED and the student enrolls in ESL courses within the same school ("first school") or elsewhere, then they will not be included in the College and Career Readiness indicator cohort. The first school will receive credit for student achievement only. If the student does not enroll in ESL courses, the first school will still be required to track College and Career Readiness outcomes for this student. <br> - Students with a secondary credential who enroll in an adult education school's vocational program can be counted as entering postsecondary education or training upon exit from the school. <br> - Students with a secondary credential who exit the reporting school and enroll in another school's career training program can be counted as entering post-secondary education or training by the reporting school. Students who exit and enroll in another GED or secondary |  |

| Indicator | Measure | Description | Components, Method, Additional Notes <br> credentialing program are not counted <br> as entering postsecondary. <br> Students who exited in the program <br> year but are enrolled again at the time <br> of the data collection are considered <br> continuing students and their <br> outcomes are not reported until they <br> exit. <br> If a school does not know whether a <br> student was employed at entry, then <br> the student is treated as not employed <br> at entry and should be followed up on <br> one quarter after exit. |

|  |  |  | i. If a students is non-response in the school's survey results, but the student's outcomes are captured via other valid means (e.g., Jacob France Institute or National Student Clearinghouse data), then the student will be counted as having the outcome. <br> j. If a school graduates students with a Spanish GED and the student enrolls in ESL courses within the same school ("first school") or elsewhere, then they will not be included in the College and Career Readiness indicator cohort. The first school will receive credit for student achievement only. If the student does not enroll in ESL courses, the first school will still be required to track College and Career Readiness outcomes for this student. <br> k. Students who exit with a secondary credential and enroll in an adult education school's vocational program can be counted as entering postsecondary. Students who exit and enroll in another GED or secondary credentialing program are not counted as entering postsecondary. |  |
| Leading | Attendan ce | In-seat attendance rate. | Components <br> - Students receiving 12 or more hours of service <br> - Daily student attendance records during the program year <br> Metric $\left[\frac{\# \text { of day s present }}{\# \text { day s enrolled }}\right] * 100$ <br> Notes <br> Aligns with District of Columbia Public Schools (DCPS) calculation and calculation for all other Performance Management Frameworks. | This metric reflects the percentage of students attending classes daily. |

| Indicator | Measure | Description | Components, Method, Additional Notes | Rationale |
| :---: | :---: | :---: | :---: | :---: |
| Leading | Retentio <br> n | Number of students with both a baseline assessment (pre-test) and a progress assessment (post-test), regardless of academic gain within the program year, divided by the total number of students taking a pretest. | Components <br> - Students taking a pre-test on an NRSapproved assessment or missionspecific assessment <br> - Students taking both a pre- and posttest during the program year <br> Metric $\left[\begin{array}{c} \# \text { of students with both a pre-test and post-test } \\ \text { during the program year } \\ \# \text { of students taking a pre-test } \end{array}\right]$ <br> Notes <br> - Students are counted as meeting the retention metric if the school has both their pre- and post-test levels. Students are counted as not meeting the retention metric if the school has their pre-test level but not their post-test level. <br> - All students included in the Student Progress measure are included in the Retention measure along with other students who have pre-tests in other assessments not approved by the NRS (e.g., mission-specific goal assessments). <br> - Pre-test and post-test dates must be appropriately spaced based on the publisher's guidelines. <br> - Mission specific goals assessments that have a pre-test and post-test may be used. The school should provide all pre- and post-test data. <br> - If a student took both an NRSapproved assessment and a mission specific goals assessment, the NRSapproved assessment will be used for the Retention measure. <br> - Eligible students enrolled in a school's ABE and/or ESL program without a NRS-approved assessment pre-test or a mission specific assessment pre-test, will be weighted as a zero for Retention. | This measure reflects the percentage of students enrolled in academic courses that complete a pre-test and post-test. |

| Indicator | Measure | Description | Components, Method, Additional Notes | Rationale |
| :---: | :---: | :---: | :---: | :---: |
| Mission Specific Goals | Career and Technica 1 <br> Educatio <br> n <br> certificati ons or alternativ e academic assessme nts offered by the school, not measured in the Student Achieve ment indicator | Schools may elect mission specific goals for the following areas: <br> A) <br> Certification : <br> Number of students earning industryrecognized certification divided by the number of exiting students enrolled in the certification course as well as the number of students earning industryrecognized certification divided by the number of exiting students taking the certification exam. <br> B) <br> Assessments : Number of students gaining at least one grade level divided by the number of test takers (within one program year). | All mission specific goals will be non-tiered measures for the 2015-16 PMF. <br> Schools will have the opportunity to submit and, if needed, negotiate their mission specific goals with DC PCSB. The Board will approve the submitted mission specific goals at the beginning of the school year. Schools will have an opportunity to revise, submit and, if needed, negotiate their mission specific goals annually using the Adult Education PMF Selections Form (Appendix E). DC PCSB will display the percentage of students meeting or exceeding each school's mission specific goal(s). <br> Schools must report the required measure on all students who receive 12 hours or more of service and are eligible for the mission specific goal as determined by the school. <br> Metric $\left[\frac{\text { \# of students meeting the }}{\text { mission specific goal }}[\# \text { of students eligible for the mission specific goal }] \times 100\right.$ | This measure provides schools with the opportunity to demonstrate progress on vocational programming unique to the school's mission and academic assessments that are not aligned with NRS reporting. |

| Indicator | Measure | Description | Components, Method, Additional Notes | Rationale |
| :--- | :--- | :--- | :--- | :--- |
|  | C) <br> Performance <br> -based <br> Measures: <br> Other areas <br> of the school <br> program that <br> may not be <br> comparable <br> across <br> school <br> programs. |  |  |  |

## Supplemental Materials

## Appendix C: Assessment Table for Educational Functioning Levels

Currently, programs are using CASAS, TABE $9 \& 10$, TABE CLAS-E, and BEST from the list of NRS-approved tests. Following is a comparison chart of those tests used for ABE and ESL students.

Adult Basic Education (ABE)

| NRS Educational Functioning <br> Level | TABE 9 \& 10 Scale <br> Scores | CASAS Scale Scores |
| :--- | :--- | :--- |
| Level 1: Beginning Literacy | Reading: 367 and below <br> Total Math: 313 and below <br> Language: 389 and below | Reading: 200 and below <br> Math: 200 and below |
| Level 2: Beginning ABE | Reading: 368-460 <br> Total Math: 314-441 <br> Language: 390-490 | Reading: 201-210 <br> Math: 201-210 |
| Level 3: Low Intermediate ABE | Reading: 461-517 <br> Total Math: 442-505 <br> Language: 491-523 | Reading: 211-220 <br> Math: 211-220 |

## Appendix D: College and Career Readiness Overview

| Metric | Start of Followup | Length of Follow-up | Numerator | Denominator | Example |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Entered <br> Employment or Entered Postsecondary | First quarter after exit | Enter <br> Employment within the first quarter after exit. <br> Enter <br> Postsecondary up to end of program year. | Students in the denominator who are employed in the first quarter after the quarter of exit or Enter Postsecondary before the end of the program year Note: If students earn a job after they entered the program, the school must follow up again with the student during the first quarter to earn credit for entering employment. | Exiting students who entered the program/program year without a job or gained a job after they entered the program. | If 100 students exit a program, none of whom entered the program/program year with a job, and the school determines through follow-up that 40 students entered employment and 13 different students entered a postsecondary program, the value would be $53 / 100$, or $53 \%$ of students entered employment or entered a postsecondary program. |
| Retained <br> Employment or Entered Postsecondary | Third quarter after exit | Retain <br> Employment within the third quarter after exit. <br> Enter <br> Postsecondary up to end of program year. | Students in the denominator that are employed in the third quarter after the quarter of exit or enter postsecondary before the end of the program year. | Exiting students who enter the program/program year with a job plus students who obtain a job in the first quarter after exit. | Five students who entered the program/program year with a job and another five students who obtained a job in the first quarter after exit, a pool of 10 exited students, are contacted in the third quarter after exit. Seven of those students still have a job, and 1 additional student entered a postsecondary program. The value would be $8 / 10$, or $80 \%$, of students retained employment or entered a postsecondary program. |
| Entered <br> Postsecondary <br> (Prior Program <br> Year) | Any time after exit, if credit was not received in any other metric | Up to end of subsequent program year. | Students in the denominator who have Entered Postsecondary. | Exiting students who earned a GED or high school diploma and did not Enter or Retain Employment from the previous program year that did not already earn credit for entering a postsecondary program. | Fifty students exit the program with a GED or high school diploma. During the first quarter after they exit the program, the school determines that 20 of these students entered a postsecondary program. Thirty students with a GED or high school diploma were not identified as entering postsecondary during the follow-up. During the next program year, the school determines that 10 more students entered a postsecondary program. The value would be $10 / 30$, or $33.3 \%$, of students entered a postsecondary program. |

## These flowcharts illustrate which students are eligible for each metric.

Appendix E: 2015-16 Adult Education PMF Selection Form

## Appendix F: College and Career Readiness Measures Survey Follow-up Questions

All follow-up surveys used for the AE PMF should include the following suggested questions. DC PCSB will request a copy of your full survey questions prior to the data collection phase.

## At entry:

1. Do you have a high school diploma, GED, or other secondary credential recognized in the United States/transferable secondary credential?
2. Are you currently employed?

## For Obtained Employment/Entered Postsecondary Follow-ups:

1. Are you currently employed (if asking within the follow-up window) or were you employed within three months of leaving the program (between <date> and <date>)?
a. If no, what is the reason that you are not working?
2. Are you enrolled in any education or training programs?
a. If yes, what is the goal of the education or training program?

## For Retained Employment/Entered Postsecondary Follow-ups:

1. Are you currently employed (if asking within the follow-up window) or were you employed nine months to a year after leaving the program (between <date> and <date>)?
a. If no, what is the reason that you are not working?
2. Are you enrolled in any education or training programs?
a. If yes, what is the goal of the education or training program?

Alternative Accountability Framework Eligibility

## Alternative Accountability Framework-Eligibility

## Identifying Alternative Schools

Some public charter schools strive to provide alternative programs in order to serve highly at-risk students. DC PCSB recognizes that the standard Performance Management Frameworks (EC/ES/MS, HS, and AE) can be inappropriate for measuring a school serving a population that is considerably different and more challenged than that of most schools.

For a school to be eligible for the Alternative Accountability Framework (AAF), it will meet all of the following criteria:
(1) The percentage of the school's students who are identified as having at least one of the following risk factors is at least $60 \%$ :
a. Receiving special education services at levels 3 or 4 .
b. Is at least two years over-aged and under-credited for their grade level.
c. Is pregnant or mothering.
d. Is under court supervision. ${ }^{31}$
e. Has been expelled.
f. Is currently or formerly incarcerated ${ }^{32}$ or adjudicated.
g. Is homeless.
h. Is currently or formerly in foster care.
(2) The school's mission specifically expresses its desire to serve at-risk and/or high-level special education students. ${ }^{33}$
(3) The school serves grades that fall within the traditional PK-12 system with the ultimate aim of students earning a DC high school diploma by meeting or exceeding the DC high school graduation requirements or serves students ages 3-24 in an ungraded program where students earn certificates of IEP completion.

Schools that meet the above criteria shall be approved by DC PCSB to use the AAF.

## Indicators and Measures

Once a school is eligible to be evaluated using the Alternative Accountability Framework, it will consult with DC PCSB staff to design a unique set of goals aligned to specific indicators ${ }^{34}$ of quality, with traditional and/or non-traditional measures, ${ }^{35}$ metrics, ${ }^{36}$ and targets unique to the school's program. This school's unique AAF will be subject to approval of the Board and will ultimately be incorporated into the school's charter as its charter goals and student achievement expectations. Each school's AAF will be measured annually, and the achievement results will be shared publicly. While each AAF will be unique to that school, staff intends to explore in the future

[^20]whether there is a way to appropriately display results on a $0-100$ scale used by DC PCSB's Performance Management Frameworks.

Schools should select one or more measures for each of the indicators below:

- Student Progress - Academic improvement over time on the statewide assessment.
- Student Achievement - Academic proficiency on the statewide assessment and additional assessments such as NWEA MAP, Scantron Performance Series, or Renaissance Learning.
- Gateway/Postsecondary Readiness - Outcomes in key subjects that indicate future success or that are aligned to college and career readiness such as graduation rates of four-, five-, six-, and seven-year cohorts, SAT/ACT performance, Accuplacer results, preparation of FAFSA (student aid) applications, workforce readiness, credit/course completion, or other postsecondary readiness metrics.
- Student Engagement - Predictors of student achievement such as suspension rates, truancy rates, in-seat attendance rates, student re-engagement rates, and positive socio-emotional or psychological adjustment rates.

## Metrics

DC PCSB staff will work with the eligible schools to select the specific measures that will gauge the school's performance, including both traditional and non-traditional measures aligned to the categories above. The specific targets for each school may be determined using baseline data from previous years or results from other schools serving similar populations of students in Washington, DC, or other districts in the country.

## Appendix F: Alternative Accountability Framework - Data Dictionary

1) Receiving special education services at levels 3 or 4, verified by the Special Education Data System (SEDS) or the Statewide Longitudinal Education Data (SLED) system.
2) At least two years over-aged and under-credited for their grade level.

If students are the age below by September 1 of the current school year, they are eligible:

| Grade | Age |
| :---: | :---: |
| K | 7 or older |
| 1 | 8 or older |
| 2 | 9 or older |
| 3 | 10 or older |
| 4 | 11 or older |
| 5 | 12 or older |
| 6 | 13 or older |
| 7 | 14 or older |
| 8 | 15 or older |
| 9 | 16 or older |
| 10 | 17 or older |
| 11 | 18 or older |
| 12 | 19 or older |

As verified by SLED and/or a student's birth certificate.
3) Is pregnant or mothering.
4) Currently under court supervision.

Includes students on probation, parole, or classified as Persons in Need of Supervision (PINS) in addition to those receiving services from Child and Family Services (CFSA) or those who have case files with Department of Youth Rehabilitation Services (DYRS).
5) Expelled.
6) Currently or formerly incarcerated or adjudicated.

Incarcerated: The student has served time in an adult correctional facility or a juvenile detention center.

Adjudicated: The stage of the juvenile criminal justice process when "all the preparations and court hearings from the time formal charges are petitioned against a juvenile in juvenile court until a decision is made by a plea agreement or a trial about whether the juvenile committed a crime. In juvenile court, the trial is also known as the adjudication hearing or the fact-finding hearing." More information about the adjudication process in the District of Columbia can be found at:
http://www.courtexcellence.org/uploads/publications/DCJuvenileJusticeGuideEnglish_Final. pdf
7) Homeless: Homeless children and youths as defined in section 725(2) of the McKinneyVento Education of Homeless Children and Youth Assistance Act.

The term "homeless children and youth" means:

- Children and youth who lack a fixed, regular, and adequate nighttime residence; and includes children and youth who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to lack of alternative adequate accommodations; are living in emergency or transitional shelter (including DC transitional housing); are abandoned in hospitals; or are awaiting foster care placement.
- Children and youth who have a primary nighttime residence that is a private or public place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.
- Children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings.
- Migratory children who qualify as homeless because they are living in circumstances described above.
- Unaccompanied youth, including youth who are not in the physical custody of a parent or guardian, who qualify as homeless because they live in circumstances described above.

Source: http://osse.dc.gov/sites/default/files/dc/sites/osse/publication/attachments/McKinney-Vento\ Homeless\ Act\ Law-2.pdf
8) Foster care as defined under 45 CFR 1355.20: Foster care means 24 -hour substitute care for children placed away from their parents or guardians and for whom the Title IV-E agency has placement and care responsibility. This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child care institutions, and pre-adoptive homes. A child is in foster care in accordance with this definition regardless of whether the foster care facility is licensed and payments are made by the state, tribal or local agency for the care of the child, whether adoption subsidy payments are being made prior to the finalization of an adoption, or whether there is federal matching of any payments that are made.

Defined in the Federal Foster Care Program authorized by Title IV-E of the Social Security Act, as amended, and implemented under the Code of Federal Regulations (CFR) at 45 CFR parts 1355,1356 , and 1357.

## PMF School Profile Page

Every school receives a profile page as part of the PMF. The profile page is the first page of the scorecard. The profile page gives contextual information about the school.

The profile age includes the following sections:

1. Basic School Information - including score and tier history
2. School Profile
3. Student Demographics
4. A Note from the School

## A Note from the School

Washington Public Chartar Schools rission is to propare a commurity of successfd learners for active ckizenship and further education in a cimate of respect and appreciation for diwarsity. Washington Pbibic Chartor School accomplishos this rission through a balancad ourriolum focusing on the dovalopment of mind, body, and character. We are correvitted to providing our studants with service laarning opportunitios wkh intagratod tachnology. Studerks use laptopes, interactive whitaboards, and documant cameras as they work in toarme on service laarning projects. We celebrato studont achiovements aach month and zz an and of year assambly. Weshington Public Chartor School has recaivod recognition for is commerity service by roceiving the Jofferson's Award for Piblic Service.

## 1. Basic School Information

The basic school information section identifies the name of the school for each PMF scorecard. This also includes the current address, ward, and phone number for the school. DC PCSB publishes the current information for a school at the time of publication. If a school has multiple addresses, the PMF Profile page can display up to two locations for a single school.

Additionally, the tier box shows the historical score and tier information for each school. If a school has received a PMF score and tier for several years, the historical information is listed on the scorecard for the current year and up to four previous years. The adult education schools were tiered for the first time in 2014-15. Historical tiers will be added as they become available. Since the adult education framework does not assign an overall score, no score will be included for these schools.

There are some instances where a school will not receive a score or tier:

1. First Year of Operation:

Schools receive a score but not a tier in the first year of operation. The tier bubble will say "N/A" in this case.
2. Hold Harmless:
a. In 2014-15, the EC/ES/MS schools were not scored or tiered due to the change in the state assessment and the first year of the EC/ES/MS framework. Prior to 2014-15, only ES/MS schools received a tier. Early childhood (EC) schools did not receive a score until 2014-15.
b. In 2014-15, the high schools were not scored or tiered due to the change in the state assessment.
3. EC schools that are adding a grade annually and not using the DC PCSB approved growth assessment for kindergarten through second grades do not receive a tier until the school adds grade 4. Up to this point, the school is considered an EC Growing School under the EC/ES/MS framework and only receives a score, no tier.
4. Prior to the AAF, some high schools have received a HS PMF score but an " $\mathrm{n} / \mathrm{a}$ " for the tier.

## 2. School Profile

The school profile section displays the school's current leadership and grade configuration at the time of the PMF publication. Since the PMF is typically produced four to five months after the school year ends, this section displays the current board chair and school leadership. If a school is adding a grade every year, the current grades served reflect the current year and not the grade configuration measured on the scorecard.

The AE PMF school profile will display the ages the school serves and the program offerings instead of the grade offerings.

## 3. Student Demographics

The student demographics section displays the school's demographic population the year prior to the release of the PMF. This information reflects the student body of the year the data are captured for the PMF. This is the only section on the profile page that contains data from the previous year.

The student demographics section is based on the OSSE final demographics file. OSSE reports demographics following the Department of Education's federal reporting requirements. The demographics file is finalized at the end of the year by OSSE to capture the demographics of every student the school served, not just those in the final enrollment audit. DC PCSB uses this file, reporting rates based only on the data for audited enrollment students. The audited enrollment file is the official roster for the Uniform Per Student Funding Formula "UPSFF".

For demographic categories where UPSFF funding is based on the highest level of need served in that school year (Special Education, Economically Disadvantaged, English Language Learners, and At-Risk), the final file is updated based on the highest level of need for each student. The following ethnicity/race categories are displayed in the Student Demographics section:

- Asian
- Black non-Hispanic
- Hispanic/Latino
- Native American/Alaskan Native
- Pacific Islander/ Native Hawaiian
- White non-Hispanic
- Multiracial

If OSSE changes its reporting guidance, DC PCSB will follow OSSE's reporting requirements.
The student demographic section also includes the English Language Learner (ELL), Special Education, Economically Disadvantaged, and At-Risk populations for each school based on the OSSE final enrollment audit file and business rules. Economically Disadvantaged and At-Risk categories do not apply to adult education campuses and are not displayed on the PMF scorecard.

## 4. A Note from the School

Each school has the opportunity to include a paragraph that speaks to their mission and purpose. The Note from the School is submitted by the school for the PMF. In this section, the school describes the unique aspects of its program.

[^0]:    ${ }^{1}$ Under DC law, each charter school is a separate Local Education Agency (LEA). In this guide the word "school" means LEA, and the two terms are used interchangeably.

[^1]:    ${ }^{2}$ Schools designated as Focus or Priority by the Office of the State Superintendent of Education (OSSE) are also subject to QSRs, pursuant to DC's ESEA (Elementary and Secondary Education Act) waiver agreement with the U.S. Department of Education.

[^2]:    ${ }^{3}$ See "A Framework for Academic Quality," National Consensus Panel on Charter School Academic Quality, June 2008, available at http://www.publiccharters.org/wpcontent/uploads/2014/01/NAPCS_CSQC_Report_20110402T222336.pdf.
    ${ }^{4}$ The PARCC (Partnership for Assessment of Readiness for College and Career) is the assessment given to all DC public school students in English Language Arts and Mathematics, beginning with the 2014-15 school year.

[^3]:    ${ }^{5}$ Each year, PCSB will follow the business rules outlined in this document to determine if the floors and targets for each measure should be revised based on updated data. Any revisions will be voted on by the Board with opportunity for public review and comment.

[^4]:    ${ }^{7}$ PCSB will report results in all cases where 10 or more students are included in a metric result, even if less than $5 \%$ or greater than $95 \%$ of the students meet the criteria.

[^5]:    ${ }^{8}$ See NWEA's 2015 Norms Report, section 4.2 .2 for additional information. The Conditional Growth tables are in Appendix E of this report.

[^6]:    ${ }^{9}$ Two full academic years means, for example, that a student who took the PARCC exam in the spring of 2016 has been enrolled in the school since at least October 2014.

[^7]:    ${ }^{10}$ The three-year weighted average is calculated as follows: the most recent year has $50 \%$ weight, the previous year has $30 \%$ weight, and the year prior to that has $20 \%$ weight.

[^8]:    ${ }^{11}$ The three-year weighted average is calculated as follows: the most recent year has $50 \%$ weight, the previous year has $30 \%$ weight, and the year prior to that has $20 \%$ weight.
    ${ }^{12}$ This was done in 2012 when the state changed the methodology for calculating graduation rates, and it will be done when the state converts its state assessment from DC CAS to PARCC.

[^9]:    ${ }^{14}$ Transitional Floors and Targets for Student Achievement and Gateway. Because of the change in PARCC, the PMF Task Forces voted on new business rules to create transitional floors and targets for Student Achievement and Gateway measures relating to the PARCC on the 2015-16 PMF. The floor for Student Achievement will be set at 0.0 , and the target will be the $90^{\text {th }}$ percentile plus the percentage difference between the current $90^{\text {th }}$ percentile and the aspirational target from previous years. The floors and targets created using these business rules will be used for two years.
    ${ }^{15}$ If a school does not have applicable gateway grade, the $5.0 \%$ will be added to the other applicable gateway grade. If a school has neither $3^{\text {rd }}$ nor $8^{\text {th }}$ grades and has grades in between, the school will not receive a Gateway Measure and the total score will be out of $90 \%$.

[^10]:    ${ }^{16}$ If a school does not have an applicable gateway grade, the $5.0 \%$ will be added to the other applicable gateway grade. If a school has neither $3^{\text {rd }}$ nor $8^{\text {th }}$ grades and has grades in between, the school will not receive a Gateway Measure and the total score will be out of $90 \%$.
    ${ }^{17}$ If a school does not have applicable gateway grade, the $5.0 \%$ will be added to the other applicable gateway grade. If a school has neither $3^{\text {rd }}$ nor $8^{\text {th }}$ grades and has grades in between, the school will not receive a Gateway Measure and the total score will be out of $90 \%$.

[^11]:    ${ }^{18}$ If a school does not have applicable gateway grade, the $5.0 \%$ will be added to the other applicable gateway grade. If a school has neither $3^{\text {rd }}$ nor $8^{\text {th }}$ grades and has grades in between, the school will not receive a Gateway Measure and the total score will be out of $90 \%$.
    ${ }^{19}$ If a school does not have applicable gateway grade, the $5.0 \%$ will be added to the other applicable gateway grade. If a school has neither $3^{\text {rd }}$ nor $8^{\text {th }}$ grades and has grades in between, the school will not receive a Gateway Measure and the total score will be out of $90 \%$.

[^12]:    ${ }^{20}$ New Early Childhood schools that begin in grades PK-3 will be placed on this framework only if they do not use a PCSB-approved assessment for the EC/ES/MS PMF. Once a school has $4^{\text {th }}$ grade, the campus will receive a PMF for schools ending in 4-8.
    ${ }^{21}$ For the year the growing school ends in grade 3, PCSB will display the grade 3 PARCC results with the same floors and targets used for these measures.

[^13]:    ${ }^{22}$ The three-year weighted average is calculated as follows: the most recent year has $50 \%$ weight, the previous year has $30 \%$ weight, and the year prior to that has $20 \%$ weight.
    ${ }^{23}$ For a school not choosing to include the optional social-emotional assessment for PK Only Student Outcomes, the points are redistributed evenly between the subjects of pre-literacy and math."

[^14]:    ${ }^{25}$ The floors and targets for the Career Readiness measures were determined with the input of the HS PMF CTE working group in summer 2015 and introduced to the Board in October 2015.

[^15]:    ${ }^{26}$ This was done in 2012 when the state changed the methodology for calculating graduation rates, and it will be done when the state converts its state assessment from DC CAS to PARCC.

[^16]:    ${ }^{27}$ A copy of the Strategic Plan can be found at: http://osse.dc.gov/publication/career-and-technical-education-cte-strategic-plan; schools may appeal the PCSB to include a certification that is not an eligible CTE career sector if the school can show that the career filed meets the high-skill, high-wage, and high-demand criteria outlined in the Strategic Plan.

[^17]:    ${ }^{28}$ A copy of the Strategic Plan can be found at: http://osse.dc.gov/publication/career-and-technical-education-cte-strategic-plan; schools may appeal the PCSB to include a program of study that is not an eligible CTE career sector if the school can show that the career filed meets the high-skill, high-wage, and high-demand criteria outlined in the Strategic Plan.

[^18]:    ${ }^{29}$ The three-year weighted average is calculated as follows: the most recent year has $50 \%$ weight, the previous year has $30 \%$ weight, and the year prior to that has $20 \%$ weight.

[^19]:    ${ }^{30}$ For the 2015-16 AE PMF, no change was made to the Attendance measure floor or target from the 2014-15 AE PMF.

[^20]:    ${ }^{31}$ Includes students affiliated with the following agencies: Child and Family Services (CFSA), Department of Youth Rehabilitation Services (DYRS), Persons in Need of Supervision (PINS), on probation, or on parole. This risk factor will be included pending receipt of data from OSSE and these agencies.
    ${ }^{32}$ This includes incarceration in an adult correctional facility or a juvenile detention center.
    ${ }^{33}$ Schools whose original mission does not include serving alternative students but whose student populations have evolved to include larger percentages of at-risk and high-need special education students may amend their missions.
    ${ }^{34}$ Indicators - general dimensions of quality or achievement.
    ${ }^{35}$ Measures - general instruments or means to assess performance in each area defined by an indicator.
    ${ }^{36}$ Metrics - the calculation method or formula for a given measure.
