

# Student and Family Handbook

SY18-19

## **A Note from the Executive Director and School Principal**

Dear Students and Families,

We are excited to be starting the year at Washington Leadership Academy with you. This handbook is a guide for the policies set out by our school leadership to enable the wellness and order of our school. Policies are written with the best interests of the student in mind, their development, and their growth towards college access and completion. Please take some time to review this handbook to best understand how our school will organize itself around Academics, Student Wellness, Student Safety, School Culture, Extracurricular Programming, and Governance Policies as well as other useful information regarding dates and courses.

For questions or clarity on these policies please reach out to the school leadership or your student's advisor.

With Gratitude and Commitment,

Stacy Kane  
Executive Director

Stephanie Renee Young  
Principal
