

Webinar on Proposed OSSE Dual-Enrollment Regulations

Overview

- Many charter LEAs currently offer dual enrollment courses
- OSSE regulations on dual enrollment are based on best practice and feedback from colleges:
 - ◆ On-campus is more effective than at-school
 - ◆ MOUs with colleges and universities avoids misunderstandings and problems

Impact of Proposed Regulations on Charter Schools

- Because of charter autonomy under the School Reform Act, charter LEAs will NOT be subject to these regulations
- Nevertheless charters may find themselves impacted by the regulations:
 - ◆ Local colleges may insist on an OSSE-compliant MOU in order to offer dual-enrollment
 - ◆ Compliance with these regs may be a requirement to receive OSSE grants associated with college access
