Hi Jessica,

It was great being able to touch base with you last week regarding Digital Pioneers Academy's proposed relocation to [719 12th Street SE](#). We are excited for the opportunity to join a part of your community and meet members of the community as well.

I was hoping you would be able to connect us to any stakeholders you feel would be beneficial for us to touch base with regarding this proposed move.

Thanks again for your support,  
Mashea
